TOTAL COMMITMENT. NO COMPROMISE.

TOTAL COMMITMENT. NO COMPROMISE.

1971-2017

Remembering A Great Man

Ronald E. Pierce

May 15, 1935 - December 4, 2016

We want to thank you for taking a look at Bass Cat, a brand that my father and mother, Ron & Jan Pierce, started 46 years ago in early 1971. Dad passed on December 4th, 2016. His dream is now his heritage, and lives on through each of us. Dad was an ambassador for the sport, and had a great life. He served seven years on the Arkansas Game & Fish Commission and as Mayor of Mountain Home for 10 years before that. He accomplished much in his life, though most of you knew him for the brand he built here. We all will miss him greatly. He was an adopted parent to many in the company. They all loved him and he loved people. I was blessed to have an amazing parent and friend as an adult.

We enter into 2017 with a lot happening. We picked up a new tag line that we think best describes our brand and our goals: "Total Commitment. No Compromise." We have lived that for decades! It's not just a catch phrase, it's something that we live through our Owner's Board and those thousands of loyal Bass Cat owners. They all know the commitment to them and to customer service unparalleled in almost any industry. It became well known after receipt of five JD Power and Associates awards, where we set JD Power records for all industries.

By now, most of you have heard references to the Bass Cat Family. We started that many years ago with the first Owners Invitationals, referred to as the "Family Reunion". Those events started small at Greers Ferry in 1983, as the first boat owners event in the country. In 1986 we expanded with 247 boats competing on Lake Norfolk. It is a once in a lifetime experience with nearly 800 boats participating some years. At Gunter'sville in 2017 we hope to host over 500 boats. After that 2018 schedules it back in Arkansas and the Mountain Home area, most likely Lake Norfolk.

Recently we introduced a new BassCat.com with some catchy differences from other sites. This is a work in progress over the next 10 months. We will work diligently to get it updated and populated with fresh information, or content as they call it.

Our Bass Cat Family has grown among the Elite and FLW Tour levels with the recent additions of Steve Kennedy, Brandon Card, Paul Elias, Jesse Wiggins, Jordan Osborne, Chad Pipkens and to Iaconelli, Crews, Feider, Myers, Avena, Brainard, McCaghren, Kiriyaama, Birge, Fox, Jocusen, Dillard and some we didn't leave out intentionally. We are also pleased to see Gerald Sporher join the Elites and we hope his accomplishments gather. Expanding on that is our MLF involvement as the original sponsor of MLF.

The bass boat market is changing faster now and the Bass Cat brand is growing. We have established new dealers and are working to expand our inventory in dealerships. Owners of other brands are beginning to understand the difference in incentive plans, that Quest pays after the boat payment ends. This is valuable as people who own Bass Cat's keep them a long time. They know we demand the best materials like Owens Corning glass, Syntec vinyl and carpet, and AME-6001 resin on Premium models. Our attention to detail matches the demand we put on our vendors for better raw product. Our owners have known this for some time, and now other anglers are seeing the light as well. We have seen many new faces in a BCB. Between our innovation, Quest, the National Team Championship, the Owners Invitational and many other events, we have a lot to offer—more than ever before.

You can look further down the road and meet us at our annual dealer meeting, "Excellence In Action". The 2018 event will occur on Lake DeGray outside Arkadelphia, Arkansas in late July. It will be open to the public on July 24th, 2017, and we encourage you to come drive all of our models and get a real feel for what they do. Of course there will be limitations on the monster Jaguar with the 400R Verado, though you can ride in that one. Thus if this brochure doesn't help you into a Bass Cat now, we will give you more opportunities later in the year.

All of this is extending and improving the heritage my father started some 46 years ago. It is a heritage I have been proud to be a part of since I was 13 years old! We think Dad is proud of where we are headed.

The next 18 months are going to be a lot of fun at Bass Cat! We are ready to make it happen and it is all going to be very exciting. From the upcoming Classic in Houston on we are ready to see the future.

God Bless and Good Fishin'.

Rick Pierce

**Rick Pierce, President
Bass Cat Boats**

CONSTRUCTION AND COMPONENTS

1. Quality Gel Coat Application

Strategic steps, high atomization, and a wet flake application gives a BCB gel coat the look, feel, and consistency that is unmatched in our industry.

2. Finishing Department

The important key in our finishing department is the fact that all electrical, plumbing, and fuel rigging is done after the boat is assembled. This equates to easier access to batteries and pumps making maintenance procedures easier, which ultimately decreases your cost of ownership.

3. Full Width Transom Strength

Everyone talks about how strong their transoms are. None compare to the BCB all fiberglass, vacuum molded units that extends the entire width of the hull. No fillers are used as we set into wet fiberglass to secure them to the hull boat.

4. Vacuum Process Hull Assembly

One-piece stringers, floors, and transoms are pulled together using massive vacuum pumps. This creates our famous one piece hull design that you can truly feel as you pass the competition on the water.

5. 6-Bolt Custom Jack Plates

The custom plates made for Bass Cat are a big deal. Added rail length, full transom support, and an extra tie bar gives you the advantage on big water.

6. 24 Ounce Marine Grade Carpet

Not all marine carpet is equal. We use the heaviest grade available; 24 ounce per square foot. This carpet goes in every Bass Cat model for better wear, less fatigue, and longer life.

7. No-Plastic Dash Assembly

Elegant, drilled-to-fit dashes will stand up to the test of time...and any rough water you may encounter. All fiberglass construction with color coordinated gauge bezels for a nice touch.

8. BCB Trailers

Our trailers are built in-house, with the same intensity and passion that goes into our boats. All are custom fit to each model and made with U.S. steel.

As you do your homework on our boats, we encourage you to look below the clean lines, deep gel coat, and high quality components.

The pure vinyl ester resin that binds our vacuum molded assemblies creates a true one-piece hull and structural integrity that is unmatched.

Every aspect of a Bass Cat is built to outlast your years of use, decrease your overall cost

of ownership, and retain the value of your Cat that others can't touch.

Our transparent factory tours are available to everyone. Stop in and see for yourself!

BASS CAT PREMIUM LINE

Our Premium line of boats represents the pinnacle of superior performance, and attention to detail. These competitive innovations have led the way in bass fishing for over 45 years. We understand that every boat leaving this factory is a reflection of your dreams and the desire to own the best. The diverse Premium lineup has something to offer all angler demands, fishing styles, and layout preferences that fuel the top competitors in the bass fishing world today.

Bass Cat
TOTAL COMMITMENT. NO COMPROMISE.

PUMA FTD

JAGUAR

Sleek, fast, and nimble with an unparalleled ride, the Jaguar is THE iconic Bass Cat model. Boasting an unequaled fishing platform built on a 21'5" frame, the Jaguar exudes luxury. With a 7" deeper bow rise than its sister hulls, there is no need in shying away from the waves.

The Jaguar's storage innovations set the bar high. From the dual boxes with scissoring tackle storage systems to the dual forward tackle storage boxes that are separated by a built in net scabbard, tackle storage issues become a thing of the past.

Room for your rods? Room to spare. Not only does the

Jaguar have room for your 8' rods, but it also has room for your fishing partner's in a separate passenger rod storage box. A 34 quart insulated cooler makes sure your drinks stay cold and the standard Kicker Digital Audio sound system gives you access to news, games, and your tunes.

If a luxurious, superiorly constructed, premium fishing platform that has an unparalleled rough water ride is what you desire, the Jaguar is the boat for you.

JAGUAR

- 1. Jaguar Front Deck**
Widest deck in the BCB fleet. Adjustable trolling motor pedal tray.
- 2. Dual Tier Jaguar Console**
Fairing-style console with café windscreen. Smaller passenger console (opt) to maximize space.
- 3. Scissor Storage Solution**
Twin scissor storage with additional box storage below.
- 4. Above/Below Starboard Passenger Rod Storage**
Port-side walk ramp opens up to above/below passenger rod storage.
- 5. Dedicated Storage Compartments**
Dual helmet, spare trolling motor, spare prop, and oil reservoir compartment built in.
- 6. Easy Rear Access**
Removable rear lids with fold-flat hinges for easy access to the boat's vitals.

SPECS	Length	21'5"	Beam	94+"
	Min Storage Length	26'5"	Std. Boat Weight	2150 lbs

	(Yamaha Outboards +4)		Max HP Range	250-400

Boat Driver: Darrell Newman
Boat Color: C0882

Jaguar

Performance expectations of the Bass Cat "Family" are lofty and we have exceeded them with more than just a growl in the Puma FTD.

The Puma FTD features our **Full Team Deck** concept by incorporating a front deck that's not too large of a deck to be a nimble platform, yet large enough for team anglers to work side-by-side. The layout provides storage in the front deck with seven (7) compartments, including a scabbard for your landing net.

Like all BCB models, the Puma FTD is a working tool

right down to the flip up mooring cleats for ease in docking.

Go experience the efficiency of a Puma FTD and understand the attention to detail others overlook. Every aspect of this model has a reason, no matter how simple.

In the world of competitive angling, the simple things and attention to detail make the difference in winning.

PUMA FTD

- 1. Puma FTD Front Deck**
Nimble, efficient, performance driven front deck design.
- 2. Puma FTD Cockpit**
Generous legroom, stylish dash, integrated tool holder. Cooler and daybox built into the deck step.
- 3. Front Deck Net Scabbard**
Three (3) deck storage compartments. Integrated center box net storage.
- 4. Removable Rear Compartment Access**
Fold-flat hinges that are also removable allow for easy access to the boat's vitals.
- 5. Twin Large Rod Lockers**
Rod storage for up to 8 foot rods both port and starboard in the front deck with easy access.

SPECS	Length	20'4"	Beam	94"
	Min Storage Length	25'6"	Std. Boat Weight	1825 lbs
	w/Swing Away Tongue	23'	Fuel Capacity	52 Gal
	(Yamaha Outboards +4)		Max HP Range	200-300

Boat Driver: Zack Birge
Boat Color: V1420

Puma

“ At my victory on Winyah Bay, I was traveling 110 miles each way to the Cooper River, a total of 880 miles over four days of competition, and the dependability of my Bass Cat allowed me to make that trip across those big open bays without a second thought. Running at sea level with the current I could get the boat over 80 miles per hour and that allowed me to gain 40 minutes of fishing time as compared to many of my competitors. That’s critical when you only have 4 hours to fish. In

fact, I was so much faster than the rest of them I could pass people, stop for fuel, and pass them again on the way to our final destination. In a tournament where every ounce was critical, the big livewells were also an important factor. We were running through saltwater, so once you pumped water in you had to plug them up to keep it from running out. I made the long run through big water. My fish were as strong and healthy when I weighed them in as they were when I’d caught them hours earlier. ”

- Britt Myers

2016 Winyah Bay
ELITE SERIES CHAMPION

Cougar

FTD

Boat Driver: Robert Robbins
Boat Color: M2919

The Cougar FTD (Full Team Deck) began a new era for Bass Cat in terms of efficiency and performance. It shares the refined and proven FTD hull with the Puma FTD.

COUGAR FTD

The front deck has enough beam for the perfect platform to pitch or cast from without being too wide to work close to cover or docks.

The center storage allows you to access your gear without moving your deck rods.

The console is clean and comes with either cafe or large windscreens. It

accommodates 12 inch electronic units with additional mounting options that includes our new dual, side-by-side mounting system.

With twin rear storages, sub-storage under the premium euro style bucket seats, and dual coolers, you'll always have an organized boat with storage to spare. Every square inch of this boat was carefully planned to enhance your ability to compete under any conditions.

Our Cougar FTD has been a solid performer and will continue to make its mark as a tournament predator in 2017 and beyond.

- 1. Cougar FTD Console**
New steering wheel for 2017. Single flush mount or dual unit mounting options. Roomy cockpit.
- 2. Passenger Rod Storage**
Five (5) passenger rod rack with integrated cup holders, tie down strap, and reel cushions.
- 3. Deck Storage and Day Box**
Two (2) large deck storage compartments with an additional day box. Integrated center box net storage.
- 4. Additional Seat Pedestal Base**
Ability to seat two anglers on the front deck of the Cougar FTD.
- 5. Secondary Cooler**
Dual coolers built into the front/rear deck steps on the Cougar FTD.

The layout of the Cougar FTD is perfect for my style of fishing. As a shallow water angler from Oklahoma, the cougar FTD plays a very critical part of my fishing ability.

- Zack Birge
2016 FLW GRAND LAKE CHAMPION

SPECS	Length	20'4"	Beam	94"
	Min Storage Length	25'6"	Std. Boat Weight	1805 lbs
	w/Swing Away Tongue	23'	Fuel Capacity	52 Gal
	(Yamaha Outboards 44")		Max HP Range	200-300

Eyra

“

Having spent almost half of my Elite Series career in an Eyra, I can say it is my favorite Bass Cat hull when it comes to performance, handling, ride, and deck layout. From winding bayous, to the Great Lakes, and everywhere in between, the Eyra has done everything I wanted it to do flawlessly.

- Kevin Short

Five-time Bassmaster Champion

Wow! This is all some say when they see the beauty in the lines of the EYRA. This model has earned awards with styling that is quite unconventional. An all new 20'2" hull was designed to allow the EYRA to perform well with powerplants ranging from 200-300 ponies.

The side cowl scoops for venting bring out a muscle car feel, while lines on the boat include inlaid fish on the outer deck panels. Coffin opening center doors run in line to the rod boxes. They

have a notch chock for tackle boxes to stand on edge, separated by a net trough in the center compartment. The rear access features dual removable lids and a place for a tool box and oil tank.

The cockpit is tighter and lower to bring the driver down in the boat giving you a more secure feeling. The nimble hull is quick to impress, as it carves the turns with ease, and clicks by your friends on a brisk morning.

The EYRA is truly a work of art and fills a niche for those looking for a hull with no compromise.

1. Performance Inspired Cockpit

Sits lower and tighter than the FTD line to maximize high speed safety and control.

2. Coffin Opening Center Deck Storage

Runs in-line with the outside rod boxes without interfering with rods stored on deck. Center net storage.

3. Triangle Livewells and Aft Storage

Triangle livewells are the massive replicas of the FTD line.

4. Integrated Telescoping Boarding Ladder

Convenient stainless steel boarding ladder standard on all Premium models.

5. Adjustable Recessed Foot Pedal

Customize your foot pedal placement for optimal comfort.

Boat Color: B1026

The Caracal name is a throwback to the 17 foot hot rod version that dominated performance on the 1990's Top 100 Tour. The heritage of the name is what we preserve in this longer, wide bodied hull, drawing a new base to the Bass Cat name.

This floor plan has received accolades from its owners. Changes include the net scabbard in the port deck, the tool rail and ruler slot, tandem (2) aft storages, off-center rod storage, and even a rod locker for your partner. A day use box has been returned to the front like the early 1990's Caracal II model. The rear deck has triangular wells, large starboard storage, and port power pole pump access.

Cup holders for your favorite partner(s) have been placed throughout the boat.

New fuel configuration options were added to fit your range, layout, and performance needs. The optional dual rear 26 gal tanks open up seat and step storage along the bench.

This model is turning heads with its deeper hull and broad deck. Caracal, an iconic name for a new breed of Cat!

CARACAL

- 1. Front Deck Net / Tool / Ruler Holder**
Integrated storage on deck for your net, tools, and ruler.
- 2. Dual Flush Mount Console**
Ability to flush mount two (2) graphs, or utilize an MFD for gauge and engine functions.
- 3. Removable Rear Port Storage Bin**
Rear storage bin lifts out for additional storage and access.
- 4. Above/Below Passenger Rod Storage**
Huge dual rod boxes. Port side tackle shelf for baits tossed aside.
- 5. Front Day Box**
Convenient day use box located on the front deck for quick, easy access.
- 6. Secondary Cooler**
Second cooler built into the middle seat.

BASS CAT ADVANTAGE LINE

COUGAR ADVANTAGE

PANTERA II

The Advantage line of boats by Bass Cat continues the tradition of quality first, while introducing affordability that continues to be a top choice of anglers everywhere.

"Advantage", the very word speaks volumes. Whether the Cougar, Pantera II or the Sabre FTD, each Advantage model is designed and built to provide anglers with the performance, ride and

tools they need for a success filled day on the water. While the Advantage model line goes big in performance and fishability, it boasts less frills that gives the advantage to your budget.

If your looking for a tournament able, top quality, high performing bass boat that won't break the bank, the Advantage line was custom built with you in mind.

SABRE FTD

Bass Cat

TOTAL COMMITMENT. NO COMPROMISE.

Cougar
ADVANTAGE

COUGAR ADVANTAGE

Legendary Bass Cat performance, and a spacious fishing platform without all the frills. This best describes the 2017 Cougar Advantage model. It is easily the best buy of the 20 foot bass boats on the market today, and the 2017 "SP" (Special Package) offering only helps to solidify that statement.

The Cougar Advantage is designed and focused on those club level, family anglers who spend their weekends on the water, and are back at work

on Monday. This model only comes as a packaged version with engines attached. Bass Cat strives to make every inch and appointment count to ensure you can put it in your garage at a price you can afford.

Premium built quality remains through and through. The renowned quality construction of Bass Cat's vacuum molded, full-width transom, and all 'glass, hand laid construction are standard on every Bass Cat model.

If you're stretching to find that big rig with a position all its own, you should consider the new Cougar Advantage.

1. New Advantage Dash For 2017

Redesigned, all fiberglass console and windscreen for the 2017 Cougar Advantage.

2. Dual Center Storage Compartments

Dual center storage lockers with an integrated day box inside the front compartment.

3. Triangle Livewells and Aft Storage

Triangle livewells are the massive replicas of the FTD line. The same aft storage also exists in the Cougar.

4. Removable Rear Compartment Access

Fold-flat hinges that are also removable allow for easy access to the boat's vitals.

5. Recessed Pedal/Electronics Tray

Recessed trolling motor pedal tray conveniently located next to the electronics splashwell.

Pantera II

PANTERA II

The Panthera just might be one of the most easily recognized models in bass boats. Introduced in 1988, they were literally scooped up as they were unloaded from the trucks with a waiting list not rivaled today.

At 19'1" in length, little has changed in the frame and for good reason. This is one of the most efficient and quickest boats on the market in any classification. Updates and refinements have been made since its introduction,

but the Panthera II still shines as a true gem in its class. Dual rod lockers sit outwards of two storages. A convenient sandwich tray is incorporated inside the fully insulated cooler. The tournament ready deck and the performance of the Panthera II sets the tone on most any water out there. This is a rig that serious competitors use to cast for cash all around the world. With the optional 43 gallons of fuel, and a 200 horse engine, the Panthera II sets the pace with other brands running larger engines.

- 1. Two-Tier Port Rod Locker**
Nine (9) rod tubes with a secondary rod shelf below to store your arsenal.
- 2. Twin Center Storage Compartments**
Keep your gear handy and organized with the dual center storage boxes.
- 3. Panthera II Console**
Room to flush mount graphs up to 9" with lots of legroom for tall anglers.
- 4. Rear Deck Storage**
Twin rear storage with plenty of room for 3700 style boxes flank the divided BCB livewell.
- 5. Recessed Foot Pedal**
Recessed foot pedal placement for optimal performance and comfort.

Boat Driver: Cole Mayo
Boat Color: S1023

SPECS	Length	19'1"	Beam	93"
	Min Storage Length	24'3"	Std. Boat Weight	1425 lbs
	w/Swing Away Tongue	21'7"	Fuel Capacity	33 Gal
	(Yamaha Outboards 44")		Max HP Range	135-200

The Sabre FTD is a perfect example of good things coming in small packages. This model has everything to satisfy even seasoned anglers. Available with up to 175H.P. in an engine brand of your choice, the Sabre FTD provides performance that fits any budget.

This is the model of choice for the angler seeking a lighter, more maneuverable, tournament ready rig. Thanks to an extremely efficient hull design, the Sabre FTD excels at getting the most out of any outboard in terms of fuel economy and performance. It's ability to draft skinny water makes this 18'6" model the perfect

fishing platform for the versatile angler.

The Sabre FTD is not an inexpensive starter. This is a boat with the same construction techniques of the Jaguar. The floor plan helps to maximize the angler's performance and efficiency through an expansive casting deck and abundant storages.

The Sabre FTD is a sleeper in the BCB line and hard to find as a used model on the street for good reason.

SABRE FTD

- 1. Padded Passenger Rod Rack**
Five (5) rod padded storage with side strap to keep additional rods secure.
- 2. Recessed Front Deck Reel Pocket**
Molded pocket to keep your reels safe from the trolling motor. Secure rough water storage.
- 3. Premium Custom Bucket Seats**
You will find the same plush euro style seating as our Premium models aboard the Sabre FTD.
- 4. Large Rectangular Divided Livewell**
Plenty of room for the largest bag of bass. Built in BCB aeration system. Livewell divider included.
- 5. Cooler Deck Step**
Convenient cooler in the deck step with a divided sandwich tray.

Sabote

BASS CAT VISION LINE

Bass Cat understands the broad spectrum of angler demands. That's why we offer the Vision lineup of boats. These models are assembled with the same construction techniques of the Premium and Advantage boats. They've also been engineered to exceed performance expectations when paired with smaller, more economical powerplants.

The Margay and Sabre offer nimble, stable fishing platforms. Storage solutions are designed with efficient anglers in mind.

The smaller footprints allow for easy storage regardless of garage space. Their maneuverability on the water lets you get into tight spots that others can't reach.

If this is your first bass boat, or you're in the market for a casual package with Bass Cat proven performance, our Vision models may be just what you're looking for!

MANEUVERABILITY

EFFICIENCY

VALUE

Margay

We built the Margay with a price tag and construction technique no other competitor can touch. The innovative front deck design features a huge center rod locker. Ten rods can rest above a tackle storage area. Outside of that are two smaller storages for other items.

MARGAY

The rear deck is large. It offers a storage for your partner, as well as a tool tray for you to stow gear. Couple this with the large under-seat storages (2), and you will not be short for space.

The all-fiberglass hull with new

construction techniques are used to minimize shock in rough water. The Margay has a soft ride in a big bodied 17'7" boat.

The hull has some neat tweaks to allow engines from 70 hp to the top end 150 four strokes. Just take your pick of power and price them accordingly to fit your budget.

The Margay VT comes standard with hydraulic steering. It also comes with a 3" frame and pivot tongue trailer with the option of a 4" tandem if you prefer. The Margay will handle any task with ease. It offers the safety, ride, and function at a price others work hard to beat.

1. Large Margay Cockpit

Legroom to spare. All fiberglass dash, capable of flush mounting 9" graphs.

2. Wide Front Deck Workspace

Plenty of width to work, with a recessed pedal & electronics tray.

3. Center Rod Storage

Extra large center storage compartment with 8' rod capacity. Recessed tackle storage underneath.

4. Removable Rear Compartment Access

Fold-flat hinges that are also removable allow for easy access to the boat's vitals.

5. Rear Starboard Storage Compartment

Extra large rear storage. More than enough below deck storage on this 17'7" platform.

SPECS

Length	17'7"	Beam	90"

Sabote

FTD

MotorGuide

What started as a tournament platform in the late 1980's soon developed into a price efficient 18' rig. The change in tournament rules, from 150 to 250 horsepower, gave room for this model to open doors to garages that previously were reserved for aluminum rigs and used boats.

The fishing platform hosts plenty of front and rear deck space with dual rod lockers, and dual tackle storage on the front deck. A recessed trolling motor basin

also accommodates small to mid-sized graphs. BCB performance is felt in the hole shot and handling characteristics while on plane, as the Sabre is nimble with a 150HP engine.

If you're considering a rig for casual fishing, limited garage space, or even tournament competition without breaking the bank, you should consider a Sabre. They meet the needs of most any fishing trip, with a ride and performance better than others in this category.

1. Dual Front Deck Storage

Simple, spacious, dual front deck storage layout aboard the Sabre FTD.

2. Spacious Sabre Cockpit

Room for long legs to stretch out. Simple, stylish dash configuration.

3. Divided BCB Livewell

Large capacity livewells, divided for easy fish maintenance.

4. Two-Tier Rod Storage Box

Tubed rod locker with rod shelf below for additional storage.

5. Passenger Rod Storage

Padded passenger rod rack with rod butt tubes and additional strap.

BASS CAT CUSTOM TRAILERS

CONSTRUCTION

We take our trailers very seriously. Unlike many manufacturers, Bass Cat builds Bass Cat Trailers, one at a time. Custom fit to the specific hull design of each model boat. Every member and cross support is jigged, fitted, and welded in U.S. Steel to exact tolerances.

There is zero adjustment on a Bass Cat Trailer. Axles are jigged and welded in a pattern weld to assure minimal tire wear from caster to camber. Our Torqueflex torsion axles torsion provides a true "Soft Ride Suspension". Each trailer is painted and carpeted to perfectly coordinate with the boat.

All trailers receive a PPG urethane clear coat. This provides a heavy rubberized, protective clear coating which helps repel harmful impacts from rocks and other road debris.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted. We demand the highest quality materials and hand craftsmanship for safety and security on the road...It's a Bass Cat tradition.

COMPONENTS

1

2

3

4

- 1. Double Wall Laser Cut Swing Tongue**
Absolutely, the strongest swing tongue made. Secured by a twin pin design for maximum safety and long term durability.
- 2. Torqueflex Torsion Suspension**
Unique Torqueflex suspension to create a true "Soft Ride Feel". 5 year, maintenance free Vault Hub system.
- 3. HD Canted Winch Post - PPG Clear Coat**
Rock solid, canted winch post design. Extra thick roller frames for years of trouble free loading/unloading. Premium paint and pin stripes with a thick PPG clear coat.
- 4. Custom Color Coordinated Fiberglass Fenders**
Each trailer comes with color coordinated fenders, custom fit for each particular hull design. High intensity LED clearance lights throughout.

BOW STEP

Innovative step system with a newly designed S-Bend grab post and custom offset tongue step. We keep you efficient and safe at the boat ramp!

BUILT FOR THE MILES AHEAD

BASS CAT TOURNAMENTS

NATIONAL CHAMPIONSHIP

In an effort to unite Bass Cat owners nationwide, we have launched a series of regional events that stretch from coast to coast. The winning team from each tournament receives a special invitation to compete in our annual National Team

Championship, presented by Mercury Marine. We encourage all owners to locate your local qualifying events, and earn your seat at the Championship next year! More information can be found on BassCat.com, as well as our Owner's Board.

2017 REGIONAL EVENT LOCATIONS

2016 NATIONAL CHAMPIONS

Ty Bowman & Pete Dubois

The team has earned an all expenses paid vacation to Lake Picachos, Mexico with Ronspeed Jr's Adventures in 2017!

OWNERS INVITATIONAL

2017 INVITATIONAL - LAKE GUNTERSVILLE, AL

We call this the family reunion! Our 2017 Invitational is set for Guntersville! Set your calendars for April 21-22. Our only goal is to show our appreciation to Bass Cat owners.

First morning is truly a sight to behold, as the sun peeks over the mountains, your heart starts pounding a little faster as daylight reveals a bay with lights dancing on the water. It's not often that you see a spectacle of between 400 to 800 Bass Cat Boats staged for an early morning tournament takeoff.

The rumble is heard miles away by those drinking morning coffee on their decks.

That rumble is felt in the hearts of the competitors as they compete in one of the largest complete bass events ever.

The Bass Cat Owner's Invitational is a true family affair. We provide an atmosphere for family participation. Last morning brings the final day of competition and some serious thinking, wondering if any of those fish stories the night before had any truth to them. The afternoon's weigh in provides a final experience that makes folks appreciate "The Reunion".

On the way home we want you to be looking ahead to the next Bass Cat Owner's Invitational!

April 21st-22nd - Visit BassCat.com For Details!

BASS CAT TRANSFERABLE LIFETIME WARRANTY

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two-year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. Certain items are under coverage by the manufacturer(s), separate of Bass Cat manufactured goods. Bass Cat makes no claim to represent, circumvent or exercise the independent manufacturer(s) warranties.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, alteration, neglect, accident, used for racing purposes or operated in a negligent manner at the opinion of Bass Cat boats; (5) upholstery damage; (6) any boat utilizing over an 8" jackplate (2009) or altering of standard equipment offered specifically by Bass Cat; (7) any boat which is been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component expired within a reasonable time of its expected operational period.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public," or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, or complete transfer, may make it impossible for Bass Cat Boats to give direct notice to such purchaser and does not execute warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat. During the term of this warranty repairs will be made free of charge, at any authorize Bass Cat service center under guidelines excepted by Bass Cat, or by Bass Cat itself at its discretion and approval. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats Will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as standard or optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards, and covers.

An extended Lifetime Warranty also applies. These are transferable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be

transferred only under the guidelines issued at that time period. Transfer is only complete upon receipt by Bass Cat, qualification, fees and transfer.

Extended lifetime warranty to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass an applicable qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition maybe judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

Assessments of the Lifetime Warranty will be executed base prorating dependent on the age and condition of the boat, using NADA, ABOS, or similar accepted value booklets available at that time.

Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those company(s) dealers, agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat dealer for additional information, options and specific warranty information.
