

 **Bass Cat**

FEEL THE RUSH

Rick Pierce

TOTAL COMMITMENT.

Everything Has A Reason

Over time that statement became our culture. A simple tribal tactic, not one that comes from a manual. It comes with years of building the finest bass and walleye boats in the world. Our staff compiles now thousands of years of boat-building experience. We aren't the new kids on the block, and we know our culture is deeper than any.

Total Commitment. No Compromise.

We uphold a commitment to you, ensuring each boat is comprised of the finest quality throughout the manufacturing process. Better resins, better fiberglass, better techniques and not cutting corners in any segment. It's not about the price, we demand the best materials we can buy.

We try hard to use the best materials we can fit into every application. Isophthalic resins (proprietary), AME-6001 vinyl ester resins, HK gels, Syntec vinyl, custom rub rails, tinned wire, square drive screws, six-bolt jackplates, full-width fiberglass transoms, glass guts... Nobody builds boat like we do. Our online factory tour can take you through it.

Feel the Rush

It's all about the experience. Roll casting a spinnerbait and not hitting the trolling motor head, clearing the deck as you pitch with ease. It extends to the beat and sound of the hull. The rush we all get as we tap the trim and let the air hang. It's the sound of a "Cat" imagined as it rounds a corner. You hear it, but you can't see it yet. That sound as it traps the air and tips to the next release. A lasting memory from the first time you hear it, feel it.

The rush starts here when you realize there is a difference in companies. We are not 9 to 5, and we drive it all harder. A difference that drives our culture, award-winning designs and customer service, blessed with decades of loyalty beyond any company we know.

Bass Cat Culture

The culture of Bass Cat began even before starting in my parent's garage, Ron Pierce's dream. He loved boats, and many know he built wooden boats in shop class around 1950. After a career in plastics, they began Bass Cat in 1971. There I started building boats at the age of 13.

In 2015, we made a decision of integrity, dedication and trust, as we joined Correct Craft. This was to extend our family legacy. You see, we believe in the Correct Craft culture of "Making Life Better." Better for our staff, better for our customers, our dealers, the community and ultimately the world. All for a higher reason and not for ourselves. Something we are glad to share with you and one that we all truly believed in to make this decision. Building great boats along the way is a passion we all enjoy.

The Family

And finally, we have the Bass Cat "Family." The true first "family" in bass boats! Today it seems everyone claims to be one, though we have used that term for over 40 years. It's almost unlike any brand experience as "Cat" owners gather across the country for everything. From a chance meeting at a gas station to the Owners Invitational events.

Today our owners say it's about the "Family" and it means something. It's like talking about your own generational family to them. The words Bass Cat don't even come out, until later in the conversation. They don't have to because all Bass Cat owners know what it's about. It's about the "Family", and it always has been.

Good Fishin' and God Bless,

Rick Pierce

NO COMPROMISE.

Everything we design is
done to make our anglers
more competitive.

- Kevin Short
MLF Angler

SIGNATURE PERFORMANCE

Rick Pierce has fine-tuned the art of balancing high-performance handling with unrivaled fishing ability. A true pioneer builder in the bass boat industry, he has mastered the physics and concepts which elevate each model to it's full potential.

Bowmount Features

Trolling motor placement is crucial to maximize efficiency while deployed. Precision maneuvering and proper tracking is achieved with the centerline mounting angle. Forward recessed pedal locations provide an ideal casting stance at all positions.

Front Deck Layout

Every aspect of the front deck is tailored to optimize efficiency. Narrow gunnels maximize deck space without sacrificing maneuverability in tight areas. Quick, unobstructed access to rods and tackle at all times thanks to innovative storage solutions.

Signature Running Surface

All Bass Cats have a special feel that you don't find anywhere else. There are many subtleties that lie with every internal assembly as well as the running surface, providing a responsiveness that has to be experienced. The Signature hull design turns the water down to keep you dry. Instant bow lift allows you to pick your way safely through the roughest water. Manipulating our hulls on morning glass or in an afternoon chop becomes effortless as you learn the boat's capabilities. This refined hull design gives you the ability to **Feel The Rush** like nothing you've ever driven.

SUPERIOR CONSTRUCTION

Nobody builds boats like we do

QUALITY GEL COAT APPLICATION

Strategic steps, high atomization, and a wet flake application gives our boats the look, feel, and consistency that is unmatched in our industry.

VACUUM PROCESS HULL ASSEMBLY

One-piece stringers, floors, and transoms are pulled together using massive vacuum pumps. This creates our famous one-piece hull design that you can truly feel as you pass the competition on the water.

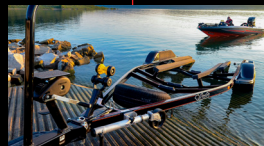

FULL WIDTH TRANSOM STRENGTH

No one compares to the BCB all fiberglass, vacuum molded units that extends the entire width of the boat. No fillers are used as we set into wet fiberglass to secure them to the hull.

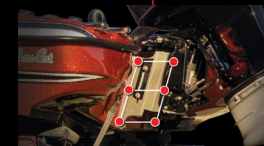

24oz PREMIUM MARINE CARPET

Not all marine carpet is equal. We use the heaviest grade available; 24-ounce per square foot. This carpet goes in every Bass Cat model for better wear, less fatigue, and longer life.

CUSTOM BUILT TRAILERS

Our trailers are built in-house, with the same intensity and passion that goes into our boats. Custom-fit to each boat model and made with U.S. steel.

6-BOLT CUSTOM JACKPLATES

The custom plates made for Bass Cat are a big deal. Added rail length, full transom support, and an extra tie bar gives you the advantage on big water.

All Fiberglass Construction - Transferable Lifetime Warranty
Hull • Transom • Floor • Stingers

Boat Color: C0895

LENGTH.....21'5"

WEIGHT2150lbs

MIN STORAGE LENGTH 26'5"

BEAM94+"

FUEL CAPACITY 53gal

HP RATING 250-400

The Jaguar is an iconic model for Bass Cat. With a 21'5" frame, the Jag carries a deeper bow rise than other models in our lineup, allowing it to eat any water you choose to run. Designed to accept engines from 250 to the lightning fast 400 Verado Racing engine, the entire performance curve is simply impressive. Three fuel tanks distribute the 53-gallon capacity evenly throughout the boat, allowing you optimize the Jag's performance based on the conditions.

Adjacent to the adjustable pedal tray is an electronics basin with room for several mounting options and an integrated buoy holder.

The innovative scissor storage system holds up to 16 tackle boxes in slide out trays. Additional trays sit forward of them to secure another 10 to 12 boxes. No other bass rig has this much efficiency in a modular system. The central net scabbard includes an integrated ruler holder for quick access and less deck clutter. Huge dual 8' rod boxes host both tubed and bulk rod storage.

Decks extend to just over 6' wide at the front deck with the back deck being even larger. We wanted to build a rig that exudes elegance and exceeds expectations of luxury and performance. Bass Cat's Jaguar is in a class of its own and is the only boat for those who share a passion to have the best.

FEATURES

1

1. JAGUAR CONSOLE

Side view mirrors flank the café style windscreen. New interactive digital switch panel and room to flush mount displays up to 12".

2. FRONT DECK ROD STORAGE

Lighted port rod organizer with integrated day box and bulk rod storage below. 8' rod capacity in both port and starboard compartments.

3. SCISSOR TACKLE STORAGE

Twin scissor trays for easy access to tackle. Additional trays for another dozen 3700 style boxes sit forward to keep you organized.

4. FRONT DECK LAYOUT

Adjustable foot pedal basin with a recessed electronics tray. Easy access to twin storage compartments with built-in net and ruler storage.

5. PASSENGER ROD STORAGE

Port side walking ramp opens up to accommodate 8' rods for your passengers.

6. REAR DECK STORAGE

Dedicated spare trolling motor storage behind the seats with additional storage boxes for a spare prop, tackle, and accessories.

Never one for building cookie cutters, Bass Cat wanted the Lynx to have the maximum amount of storage and deck space at both ends of the boat. The Lynx boasts a forward thinking, innovative deck layout and a longer running pad to further it's rough water capabilities and performance.

The star of the design is the off-center rod box with integrated tackle storage. This will hold 20+ rod and reel combos, with several over 8 feet. The angled box utilizes maximum space as the rod tips require far less area than the butt ends with the reels. Additional rod storage is possible in the port-side locker and the starboard compartments will hold everything you might need come tournament

time. All the deck lids have been built with space behind them allowing anglers to open them without crushing rods. The second starboard box features a hidden net scabbard along with ample storage. The Lynx cockpit features Wave Crusher seats with legroom to spare. Billet aluminum hand rails, dry storage, under seat storage compartments and two coolers compliment the mid ship. With the ability to easily handle a 12" graph, the Lynx console wastes no space and the configurations are many. If you've always wanted a Bass Cat with room to spare in every way that crushes rough water, look no further than the Lynx to fill that dream.

STORAGE W/ SWING TONGUE: 23'2"
(ADD 4" FOR YAMAHA OUTBOARDS)
*OPTIONAL ACCESSORIES MAY BE SHOWN

FEATURES

1

1. DEEP LYNX COCKPIT

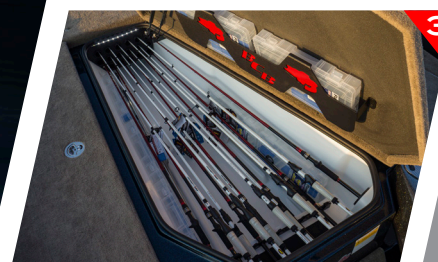

Secure seating with extra legroom. Custom 6XB steering wheel with full instrument cluster, two (2) coolers, and several dry storage compartments.

2

2. FRONT DECK STORAGE

The angled rod box lends additional room for an integrated day box and net scabbard. Additional rod/tackle storage in the port-side compartment.

3

3. TAPERED ROD / TACKLE STORAGE

Hold 20+ rods and 11 3700 style boxes with extra 'reel' estate thanks to the tapered design of the off-center rod box.

4

4. LYNX SAFETY LIGHTING

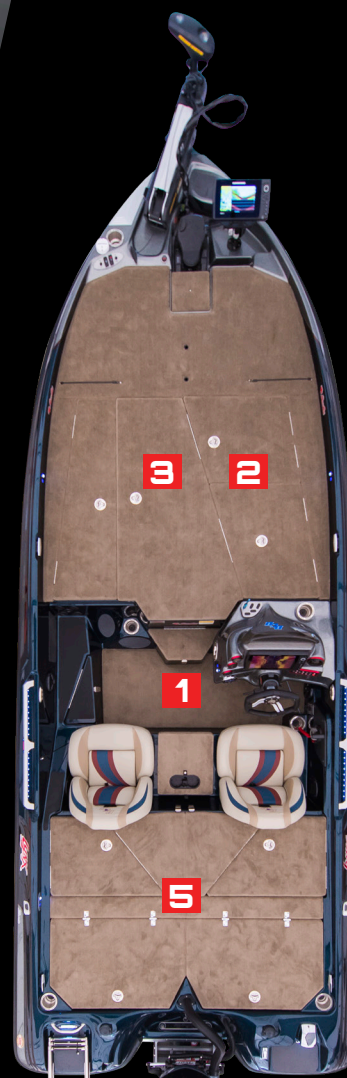

High intensity LED docking light on the bow, illuminated handrails, and rear safety lights. An underwater LED wake light compliments the package.

5. REAR DECK STORAGE / LIVEWELLS

Triangular livewells create more room for the dual rear storage compartments. Twin removable, fold-flat rear access doors for easy access to the bilge area.

6. FRONT DECK WORKING AREA

Adjustable recessed trolling motor pedal basin, electronics mounting tray, deck rod straps, and twin pedestal locations to customize your workspace.

I love how well my Puma FTD rides in rough water and big waves. I remember passing other guys this year that were having to run the troughs of waves. I was able to drive straight to my fishing spot and at the end of the day that saves a lot of time. Rough water is super tough on our equipment and I can say I never had to go to the Bass Cat service trailer a single time. I have supreme confidence in my Puma FTD to handle any conditions.

Jesse Wiggins

HP RATING **200-300**

The Puma FTD continues its legacy as one of the most popular models in the Bass Cat Premium category. At 20'4" in length, it carries the necessary footprint for maneuverability in tight areas. The forward recessed foot pedal positions anglers for pinpoint accuracy and efficiency at all times. When it's time to head offshore, the 94" beam will give you the confidence to span waves without sacrificing stability. Twin 26-gallon fuel tanks provide the range to make it out there and back with no worries.

This boat features our Full Team Deck concept by incorporating a front deck that's not too large of a deck to be a nimble platform, yet large enough for team anglers to work side-by-side.

The layout provides storage in the front deck with seven (7) compartments, including a scabbard for your landing net.

Like all BCB models, the Puma FTD is a working tool right down to the flip up mooring cleats for ease in docking.

Experience the efficiency of a Puma FTD and understand the attention to detail others overlook. Every aspect of this model has a reason, no matter how simple. In the world of competitive angling, the simple things and attention to detail make the difference in winning.

HP RATING **200-300**

The Cougar FTD (Full Team Deck) began a new era for Bass Cat in terms of efficiency and performance. It shares the refined and proven FTD hull with the Puma FTD.

The front deck has enough beam for the perfect platform to pitch or cast from without being too wide to work close to cover or docks. The center storage allows you to access your gear without moving your deck rods. The console is clean and comes with either cafe or large windscreens. It accommodates 12 inch electronic units with additional mounting options that includes our new dual, side-by-side mounting system (pg. 32).

With twin rear storages, sub-storage under the Wave Crusher seats, and dual coolers, you'll always have an organized boat with storage to spare.

Every square inch of this boat was carefully planned to enhance your ability to compete under any conditions. The Cougar FTD is a solid performer and will continue to make its mark as a tournament predator in 2018 and beyond.

FEATURES

1

1. COUGAR FTD COCKPIT

Spacious cockpit with easy access to the deck step cooler, tool holder, under-seat storage, and more.

2

2. FRONT STORAGE W/ DAYBOX

Convenient storage with tackle divider up front. Adjacent day box to keep things handy, with an even larger front deck storage box behind it.

3

3. PASSENGER ROD STORAGE

Additional port-side storage for your passenger to secure several rods along the padded rod stay.

4

4. TRIANGULAR LIVEWELL W/ BCB INSERTS

High capacity divided livewells. Custom stainless steel latches for a tight seal and minimal heat build-up. New BCB high density foam livewell pad inserts.

5. PORT ROD LOCKER

Multi-tier rod box with tubed organizer and additional bulk storage below. Max rod length is 8' with the ability to store even more rods on the starboard box.

6. REMOVABLE REAR BILGE ACCESS DOOR

Easy bilge access thanks to a rear lid that folds flat or removes completely. Batteries, fuel, and pumps are always within reach.

Eyra

I don't think it is a secret that the Eyra's hull is one of, if not, the fastest hull on tour. If you are tournament fishing, the advantage is obvious. The big surprise for me was the ability to mount the recessed trolling motor pedal further forward which allowed me to cast or pitch across the bow without hitting the trolling motor. You really don't realize what you are missing until you try it.

WEIGHT 1715lbs

MIN STORAGE LENGTH 25'0"
BEAM 94"

FUEL CAPACITY 52gal
HP RATING 200-300

Wow! This is all some say when they see the beauty in the lines of the Eyra. This model has earned awards with styling that is quite unconventional. An all new 20'2" hull was designed to allow the Eyra to perform well with powerplants ranging from 200-300 ponies.

The side cowl scoops for venting bring out a muscle car feel. Lines on the boat include inlaid fish on the outer deck panels. Coffin opening center doors run in line to the rod boxes. They have a notch chock for tackle boxes to stand on edge, separated by a net trough in the center

compartment. The rear access features dual removable lids and a place for a tool box and oil tank. This cockpit is tighter and lower to bring the driver down in the boat giving you a more secure feeling. The nimble hull is quick to impress as it carves the turns with ease and clicks by your friends on a brisk morning.

The Eyra is truly a work of art and is our quickest reacting hull.

FEATURES

1. COFFIN DOOR FRONT DECK

Center deck storage runs in-line with the outside rod boxes without interfering with rods stored on deck. Center net storage for easy access.

2. PASSENGER STORAGE

Additional rod storage conveniently located next to the passenger seat. Flip open compartment for several tackle boxes.

3. NEW DIGITAL COMMAND CENTER

New digital interactive switch panel for full control of all boat functions.

4. PERFORMANCE ORIENTED COCKPIT

Low, tight seating configuration for optimal comfort and control. Easy access to all controls, divided deck step cooler, and under seat storage.

5. FRONT DECK FEATURES

Adjustable recessed foot pedal placement to fine-tune your front deck stance. Features full trim control, voltage indicator, and large electronics mounting tray.

6. REAR DECK LAYOUT

Easy bilge access thanks to a rear lid that folds flat or removes completely. Batteries, fuel, and pumps are always within reach.

Caracal

SPECIFICATIONS

Boat Driver: Kota Kiriama
Boat Color: X6690

LENGTH	19'8"	MIN STORAGE LENGTH	24'8"	FUEL CAPACITY	52gal
WEIGHT	1725lbs	BEAM	96"	HP RATING	200-225

The Caracal name is a throwback to the 17 foot hot rod version that dominated performance on the 1990's Top 100 Tour. The heritage of the name is what we preserve in this longer, wide-bodied hull, drawing a new base to the Bass Cat name.

This floor plan has received accolades from its owners. Innovative features include the net scabbard in the port deck, tool rail and ruler slot, tandem (2) aft storages, off-center rod storage, and even a rod locker for your partner. A day use box has been returned to the front like the early 1990's Caracal II model. The rear deck accommodates massive triangular livewells, and a large starboard storage

box. Power Pole pump access can be exposed under the removable port storage box tray. Stainless cup holders for your favorite partner(s) have been placed throughout the boat.

There are several fuel configuration options to customize your range, layout, and performance needs (pg. 19). The optional dual rear 26 gal tanks open up seat and step storage along the bench.

This model is turning heads with its deeper hull and broad deck. It has paved the way in our wide-body concepts that continue to evolve.

FEATURES

1

1. CARACAL CONSOLE

Full instrument cluster surrounds a large flush graph mounting surface. Optional console available to flush mount two displays.

2. TOOL, RULER, NET HOLDER

Integrated tool, ruler, and net holder on the port side of the front deck.

3. CENTRAL ROD / TACKLE STORAGE

Easy access to lighted, vented central rod and tackle storage. No need to shift deck rods to access your gear. Convenient day box for daily necessities.

4. FRONT DECK FEATURES

Recessed rod buckles, adjustable foot pedal tray, with a real-time voltage indicator rocker switch. Twin seat post positions for optimal comfort.

5. REAR DECK STORAGE

Large rear storage compartments. Port storage offers a removable insert to place power pole pumps, spare prop, and still use as standard storage.

6. PASSENGER ROD BOX / WALKING RAMP

Dedicated 8' rod box for your passenger with room to strap down 5 additional rods to the top of the walking ramp.

Legendary Bass Cat performance and a spacious fishing platform without all the frills. This best describes the Cougar Advantage model. It is easily the best buy of the 20 foot bass boats on the market today, and the 2018 "SP" (Special Package) offering only helps to solidify that statement.

This model comes with the engine, graphs, trolling motor, and even Power Poles all combined at an attractive price.

Premium built quality remains through and through. The renowned quality construction of Bass Cat's vacuum molded, full-width transom, and all 'glass, hand laid construction are standard on every Bass Cat model.

If you're stretching to find that big rig with a position all its own, you should consider the new Cougar Advantage.

FEATURES

1. COUGAR ADVANTAGE FRONT DECK

Nimble, maneuverable platform with forward-recessed foot pedal tray to reduce fatigue and aid in casting delivery.

2. COUGAR ADVANTAGE COCKPIT

Spacious cockpit with new digital interactive switch panel. Optional removable passenger console shown.

3. BCB TRIANGULAR LIVEWELLS

High capacity divided triangular livewells with dual spray bar systems ensure a lively catch. Pump-in/pump-out, with in-line filtration.

4. BILGE ACCESS AND FEATURES

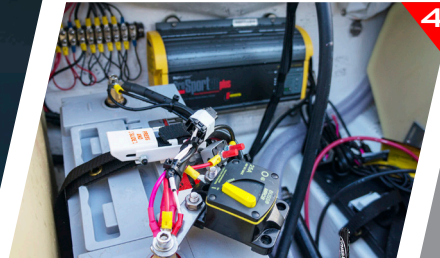

Easy bilge access thanks to a rear lid that folds flat or removes completely. Batteries, fuel, and pumps are always within reach.

5. TACKLE STORAGE / DAY BOX

Dual center storage lockers with an integrated day box inside of the front compartment.

6. UNDER SEAT STORAGE

Flip-up seat bases with access to more storage. Additional storage under the center rear deck step. Seats are coordinated to custom match your boat colors.

Pantera II

SPECIFICATIONS

Boat Driver: Steve Doty
Boat Color: S1070

LENGTH..... 19'1"

WEIGHT1425bs

MIN STORAGE LENGTH 24'3"

BEAM 93"

FUEL CAPACITY 33gal

HP RATING135-200

The Pantera just might be one of the most easily recognized models in bass boats. Introduced in 1988, they were literally scooped up as they were unloaded from the trucks with a waiting list not rivaled today.

At 19'1" in length, little has changed in the frame and for good reason. This is one of the most efficient and quickest boats on the market in any classification. Updates and refinements have been made since its introduction, but the Pantera II still shines as a true gem in its class.

Dual rod lockers sit outwards of two storages. A convenient sandwich tray is incorporated inside the fully insulated cooler. The tournament ready deck and the performance of the Pantera II sets the tone on most any water out there.

This is a rig that serious competitors use to cast for cash all around the world. With the optional 43 gallons of fuel and a 200 horse engine, the Pantera II sets the pace with other brands running larger engines.

FEATURES

1. PANTERA II CONSOLE

Updated console to accommodate larger displays and custom 6X steering wheel. All fiberglass construction for long term durability.

2. FRONT DECK ROD STORAGE

Portside tube rod organizer that holds rods to 8' in length. Additional rods can be stored in the rod shelf below, as well as the starboard locker.

3. FRONT DECK TACKLE STORAGE

Plenty of room to store all of your tackle in twin central boxes.

4. REAR DECK STORAGE

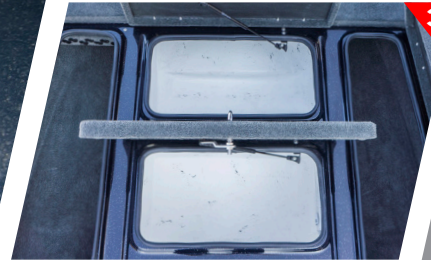

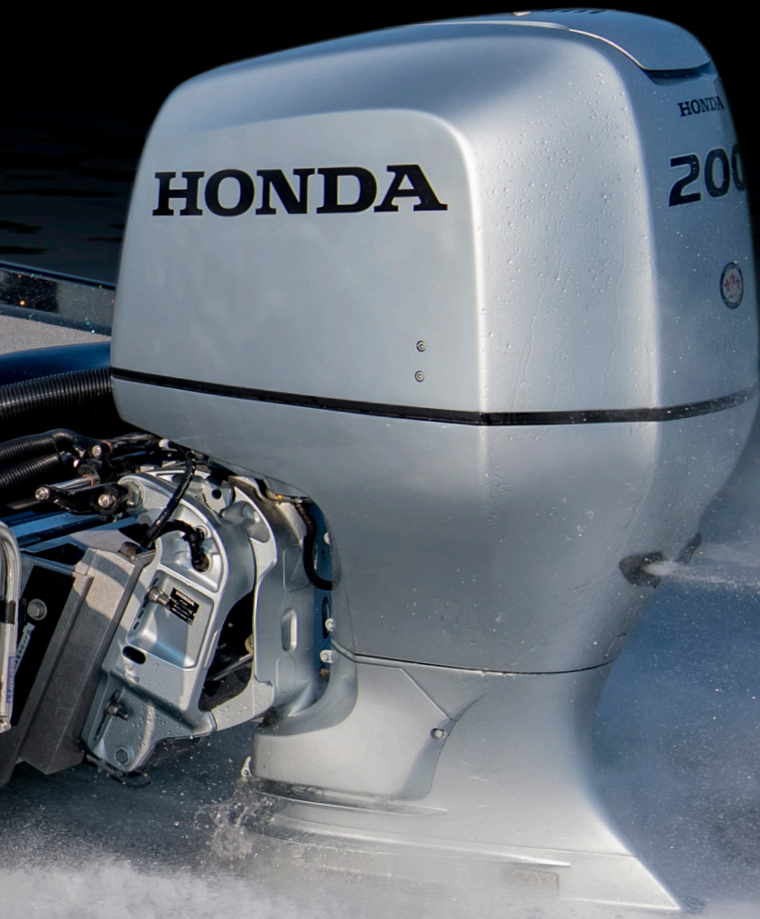

Two additional storage boxes, port and starboard on the rear deck.

5. REAR DECK STORAGE / LIVEWELLS

Divided livewell featuring pump-in/pump-out with full aeration and recirculation.

6. FRONT DECK STEP / COOLER

Front deck step opens up to a spacious cooler. Integrated sandwich tray to keep items cool and dry adjacent to the drainage well.

HP RATING 115-175

The Sabre FTD is a perfect example of good things coming in small packages. This model has everything to satisfy even seasoned anglers. Available with up to 175H.P. in an engine brand of your choice, the Sabre FTD provides performance that fits any budget.

This is the model of choice for the angler seeking a lighter, more maneuverable, tournament ready rig. Thanks to an extremely efficient hull design, the Sabre FTD excels at getting the most out of any outboard in terms of fuel economy and performance. It's ability to draft skinny water makes this 18'6" model the perfect fishing platform for the versatile angler.

The Sabre FTD is not an inexpensive starter. This is a boat with the same construction techniques of the Jaguar. The floor plan helps to maximize the angler's performance and efficiency through an expansive casting deck and abundant storages.

The Sabre FTD is a sleeper in the Bass Cat line. It captures multiple strengths found across the entire fleet and packages them in a smaller footprint that boasts advantages in many applications.

FEATURES

1. RECESSED REEL POCKET

Portside front deck rod storage offers a recessed reel pocket to secure reels and keep them out of the way when the trolling motor is stowed.

2. SABRE FTD COCKPIT

Plenty of legroom for tall anglers. All fiberglass dash construction with full instrument cluster and 12v outlet. Room for displays up to 12".

3. PASSENGER ROD STORAGE

Secure an additional five (5) rods for your passenger in the padded portside rod storage area.

4. BENCH SEAT/STEP OPTIONS

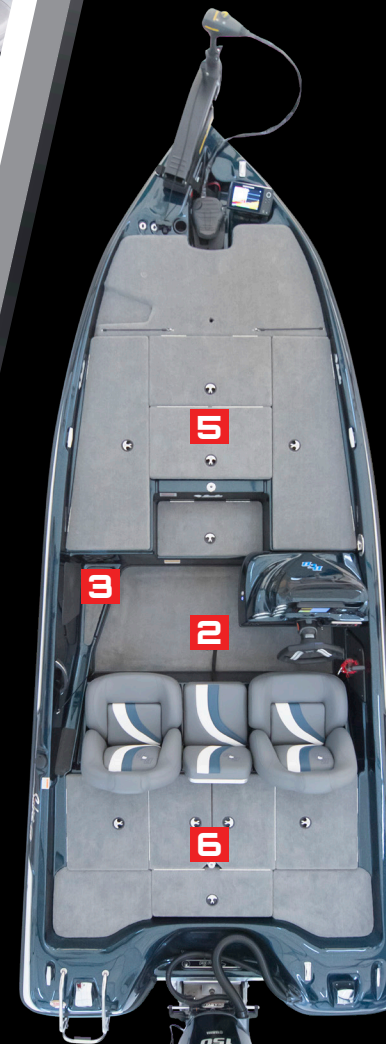

Seating for three (3) passengers if you choose the flip-up bench seat. Center step/glove box with cup holders also available.

5. FRONT DECK CENTER STORAGE

Twin compartments to hold anything you may need throughout the day. Deck step/cooler right behind the storage boxes with built-in sandwich tray.

6. SABRE FTD REAR DECK

Large divided livewell flanked by twin rear storage compartments. Plenty of rear deck working space for your fishing partner to move about.

The Pantera Classic will open doors to the segment of anglers demanding total performance in a compact package. The 19'6" hull takes the 90" beam forward for plenty of functional front deck space while still allowing the rig to fit comfortably into most 8' garage spaces.

Storage onboard the new Pantera Classic flows nicely from bow to stern. The front deck hosts a new design with never before done offset box lids and an 8'6" rod capacity. Anglers can easily access their front tackle storage without having to move around deck rods. Additional twin seat and large rear storage units accommodate a full tournament load for you and your partner.

The all-fiberglass console can accommodate screens up to 12" and offers plenty of legroom for taller anglers. Anglers can quickly access the 32-quart and 24-quart coolers nearby from the comfort of the driver's seat.

Sitting on a custom Bass Cat tandem trailer, the Pantera Classic is cradled on a 3" frame with four cross members providing maximum strength while reducing towing weight over 400 pounds. Additionally, custom-matched fiberglass fenders and trim come standard.

FEATURES

1. WIDE FRONT DECK

Beam carries well into the bow giving you over 62" of width at the first seat base. Central rod storage for easy access without moving rods.

2. SEAT STORAGE / COOLER

Additional dry storage under each seat with a 24qt cooler under the middle glove box.

3. FRONT DECK TACKLE STORAGE

Huge starboard storage boxes capable of holding all necessary tackle. Lids on either side will not interfere with deck rods.

4. PANTERA CLASSIC COCKPIT

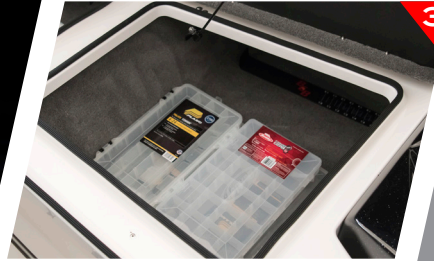

All fiberglass dash assembly capable of holding 12" displays. Floor space was specifically designed to accommodate tall anglers needing more leg room.

5. FULL WIDTH BILGE ACCESS

The entire rear lid can fold flat or completely removed allowing easy access to everything in the bilge area. Significantly reduces maintenance time.

6. STAINLESS STEEL BOARDING LADDER

Integrated telescoping boarding ladder is located out of the way yet within easy reach should you need it.

Margay

SPECIFICATIONS

Boat Driver: Flannagan Fife
Boat Color: D0931

LENGTH.....17'7"

WEIGHT1250lbs

MIN STORAGE LENGTH 23'0"

BEAM90"

FUEL CAPACITY26gal

HP RATING70-150

We built the Margay with a price tag and construction techniques no other competitor can touch. The innovative front deck design features a huge center rod locker. Ten rods can rest above a tackle storage area. Outside of that are two smaller storages for other items.

The rear deck is large. It offers a storage for your partner, as well as a tool tray for you to stow gear. Couple this with the large under-seat storages (2) and you will not be short for space. The all-fiberglass hull with new construction techniques are used to minimize shock in rough water, giving the Margay a soft ride in a big bodied, 17'1" boat.

The hull has some neat tweaks to allow engines from 70 hp to the top end 150 four strokes. Just take your pick of power and price them accordingly to fit your budget.

The Margay VT comes standard with hydraulic steering. It also comes with a 3" frame and pivot tongue trailer with the option of a 4" tandem. The Margay will handle any task with ease. It offers the price, quality, and performance level others cannot beat.

FEATURES

1. MARGAY CENTER STORAGE

Large center storage compartment that accommodates rods up to 8'. Additional room in the recessed tackle storage section underneath.

2. LARGE DIVIDED LIVEWELL

Ample room for your largest limit of bass. Divided aerated livewell with pump-in/pump-out feature, keeping your catch lively all day.

3. FRONT DECK WORKSPACE

Wide front deck with a recessed foot pedal and electronics tray.

4. MARGAY COCKPIT

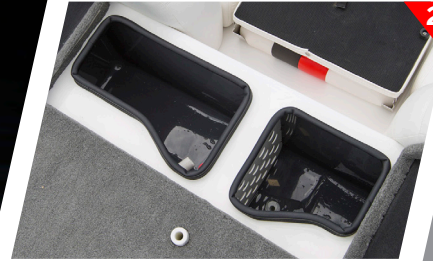

Enough legroom in the Margay for the tallest anglers. All fiberglass dash capable of holding 9" graphs. Seats fold up to expose additional storage.

5. REAR DECK STORAGE

Starboard storage box that can hold anything that can't fit in the exaggerated front storage compartments.

6. REAR DECK ACCESS

Easy access to the bilge area thanks to a removable rear lid that can also fold flat if you're working on items from inside the boat.

STORAGE W/ SWING TONGUE: 17'7"
(ADD 4" FOR YAMAHA OUTBOARDS)
*OPTIONAL ACCESSORIES MAY BE SHOWN

CUSTOM BUILT TRAILERS

BCB TRAILERS

We take our trailers very seriously. Unlike many manufacturers, we build Bass Cat trailers one at a time. Custom fit to the specific hull design of each model boat. Every cross member and support is jigged, fitted, and welded using U.S. Steel to exact tolerances.

There is zero adjustment on a Bass Cat Trailer. Axles are jigged and welded in a pattern weld to assure minimal tire wear from caster to camber. Our Torqueflex torsion axles provide a true "Soft Ride Suspension". Each trailer is painted and carpeted to perfectly coordinate with the boat.

All trailers receive a PPG urethane clear coat. This provides a heavy rubberized, protective clear coating which helps repel harmful impacts from rocks and other road debris.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted. We demand the highest quality materials and hand craftsmanship for safety and security on the road...It's a Bass Cat tradition.

[Learn more at BassCat.com](http://BassCat.com)

S-BEND TRAILER STEP SYSTEM

Bass Cat was the first boat manufacturer to incorporate trailer step systems. Our innovative trailers have a newly designed S-Bend grab post and custom offset tongue step. Once you use them, you won't want to be without them. We keep you efficient and safe at the boat ramp!

1. Double Wall Laser Cut Swing Tongue

Absolutely the strongest swing tongue made. Secured by a twin-pin design for maximum safety and long term durability.

2. Torqueflex Torsion Suspension

Unique Torqueflex suspension to create a true "Soft Ride Feel". 5 year, maintenance free Vault Hub system.

3. HD Cantilever Winch Post - PPG Clear Coat

Rock solid, cantilever winch post design. Extra thick roller frames for years of trouble free loading/unloading. Premium paint and pin stripes with a thick PPG clear coat.

4. Custom Color Coordinated Fiberglass Fenders

Each trailer comes with color coordinated fenders, custom fit for each particular hull design. High intensity LED clearance lights throughout.

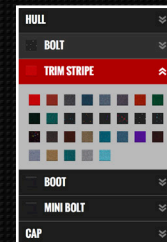

OPTIONS AND ACCESSORIES

A large selection of factory options allowing you to customize your new rig to fit your needs. Comfort, protection and style options gives you ability to build the boat of your dreams. Turn your vision into reality on our 'Build Your Dream' section at **BassCat.com**.

Features and options available for each model (p.29) may vary. Visit your local dealer or visit basscat.com to take a closer look at the full offering to build any Bass Cat to your standards.

Bass Cat Transferable Lifetime Warranty

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two-year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. Certain items are under coverage by the manufacturer(s), separate of Bass Cat manufactured goods. Bass Cat makes no claim to represent, circumvent or exercise the independent manufacturer(s) warranties.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, alteration, neglect, accident, used for racing purposes or operated in a negligent manner at the opinion of Bass Cat boats; (5) upholstery damage; (6) any boat utilizing over an 8" jackplate (2009) or altering of standard equipment offered specifically by Bass Cat; (7) any boat which is been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component expired within a reasonable time of its expected operational period.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public," or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, or complete transfer, may make it impossible for Bass Cat Boats to give direct notice to such purchaser and does not execute warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat. During the term of this warranty repairs will be made free of charge, at any authorize Bass Cat service center under guidelines excepted by Bass Cat, or by Bass Cat itself at its discretion and approval. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats Will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as standard or optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards, and covers.

An extended Lifetime Warranty also applies. These are transferable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. Transfer is only complete upon receipt by Bass Cat, qualification, fees and transfer.

Extended lifetime warranty to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass an applicable qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition maybe judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

Assessments of the Lifetime Warranty will be executed base prorating dependent on the age and condition of the boat, using NADA, ABOS, or similar accepted value booklets available at that time.

Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those company(s) dealers, agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.
