

FEEL THE RUSH™

2023 PRODUCT GUIDE

 **Bass Cat**
FEEL THE RUSH

Time flies by as if only yesterday, or so it seems, I happened to sharpen a pencil and peek through those science class windows. Through those junior high school windows, I happened to see Dad dragging his boat to its first event. Now I find myself on the other end that cycle as we enter our fifty-second (52) year in business.

The goal of being a legacy brand has long been met. Grandfathers and grandsons have enjoyed thousands of trips in Bass Cat boats. They have their own memories, and their dreams. All forged in the dream of dreamers, which solidified those values and ethics we built. The legacy, of the Pierce family, is intent to be saved for decades beyond my life. As through our Correct Craft ownership (March 2015) those here intend those values to flourish. Thus, the history we built, as the most Customer Service (CSI) driven brand, will be extended for decades to come.

Today, we also have a fresh younger group aboard this carousel, and they will set the pace going forward. They are as passionate about this brand as the 'old guard' we have here, and they are moving ahead full tilt.

As for that passion, our brand has long been wrapped in many aspects of emotion. The emotion of the customers, our dealers, and the emotion we all bring to this makes Bass Cat more than a brand. It's a way of life for many, and certainly it has been a way of life for me.

The emotions are raw passion, a passion with a method to always do the right thing. That passion extends through trust to our individual boat owners. They follow most every aspect of Bass Cat and they often know more than we could imagine about this product. They are our ambassadors as we stride forward in our product and our offering.

Today that product is anchored by the Puma STS as our main line boat. In January of 2022, the Puma STS was awarded as the "Most Innovative Freshwater Fiberglass Fishing Boat". This was at the NMMA Progressive Minneapolis Boat Show. It is 'the' award in our industry, given by "Boating Industry" only at Minneapolis, and it represents the best in our freshwater market.

This is the second model in our STS lineup. No doubt, the Puma STS has rivaled the 1988 Pantera II in popularity, and now it's only a year since production began. The boat is by far the most impressive riding boat in the bass boat market and the opinion is begin shared by many, including those outside of our circle. We never rest on our laurels, and we have more to follow, as we evolve the STS template going forward. There's always one more to come!

For 2023 we aren't making huge moves because we did so much in 2021 and 2022. Those STS models have the *Lift Latch system (Provisional Patent). We assemble the parts supplied by 6 vendors, and the design was decades coming together. While it had a tight time frame to get completed for the market, we have managed to evolve it into a function-driven accessory part in a very tedious environment.

Beginning in 2022 saw carpeting move to 28 ounces, seat material went to a very durable, supple, and expensive Glenn Raven Sunbrella vinyl. ReFlex cockpits came forward, and the inset ReFlex decking (Provisional Patent) gave more variety. Improvements were made to the Premium graph harness as we solder the ends on 6 gauge to both bow and console. Bass Cat owners will not need to add a 6-gauge clear power harness (\$350-\$400) for those multiple graph installs. The list for 2022 seemed endless and we are continuing into 2023 with those items and more.

The prime cut of our line remains the Jaguar STS and the consumers often rave on that, especially when it's teamed with the 450R Mercury. Nothing compares to the experience a Jaguar owner shares with us. Frequently owners of a Jaguar tell us that it's the "finest piece of equipment" they have ever owned. Of course, if you can pay between \$120,000 and \$190,000 for a completely rigged bass boat, you probably have some other pretty nice toys at home. We have seen Z06 'Vettes, McLaren720's, Ferrari's, Bentley's and lots of 1960's vintage hot rods. Those often sit alongside Jaguars in those garages of customers. This model raised the bar, and it may be a reach others cannot attain.

Add that to the '21 updates of the Eyra and Cougar FTD, you have models that fit the all the way through to the new Bobcat Vision model. Just as in prior seasons, the Sabre FTD and Pantera II models have their Advantage SP offerings. These are great lineage boats that do most everything well. Behind those we have the Vision series Pantera Classic. The Vision tier offers a more affordable platform to our line. Then there is the Caracal in its own niche, all driven to make this line fit a variety of owner categories.

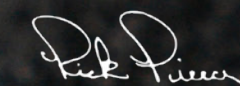

We know this is an emotional product. We also know it is a product that goes beyond that emotion and presents to you the finest bass boat made. It's not just fluff with a suit or a dress on. It's a well-built machine that expresses the character of those finer things in life. It can run hard and fishes with anything, and it will outperform those products in all aspects. From trolling motor shaft angles to center line shafts that back in a straight line, there is a lot to this game beyond all the shiny stuff

Without dragging this memo further, we are settling in on a path to the future that sets our course and includes you as a customer. No matter the coast, from east to west, we are ready to bring this brand to the next level and eclipse what others do every day. Whether it's from a Hank Cherry or a Mike Iaconelli, on to you, we want to be more than just your next bass boat. We want to be a part of your life, and your children's lives, extending beyond those of us today. No way can we share the many experiences that have been expressed, and how much that has been the case over decades. We hope you and your family become a part of this lifestyle and we hope we meet more than your expectations as a part of our "Bass Cat Family"!

This has been a mission of my family for these past 52 years, and we invite all of you to be a part of it.

Come and "Feel the Rush" with us,

Rick Pierce

BOWMOUNT FEATURES

Trolling motor placement is crucial to maximizing efficiency while deployed. Precision maneuvering and proper tracking are achieved with the centerline mounting angle. Forward recessed pedal locations provide an ideal casting stance at all positions.

FRONT DECK FEATURES

Every aspect of the front deck is tailored to optimize efficiency. Narrow gunnels maximize deck space. Quick, unobstructed access to rods and tackle at all times thanks to innovative storage solutions. Several layout variations ensure compatibility with all angling styles.

SIGNATURE PERFORMANCE

SIGNATURE RUNNING SURFACE

All Bass Cats have a special feel that you don't find anywhere else. There are many subtleties that lie within every internal assembly as well as the running surface, providing a responsiveness that has to be experienced. The Signature hull design turns the water down to keep you dry. Instant bow lift allows you to pick your way safely through the roughest water. This refined hull design gives you the ability to ***Feel The Rush™*** like nothing you've ever driven.

FEEL THE RUSH™

SIGNATURE CONSTRUCTION

TRANSFERABLE LIFETIME WARRANTY
HULL • TRANSOM • FLOOR • STRINGERS

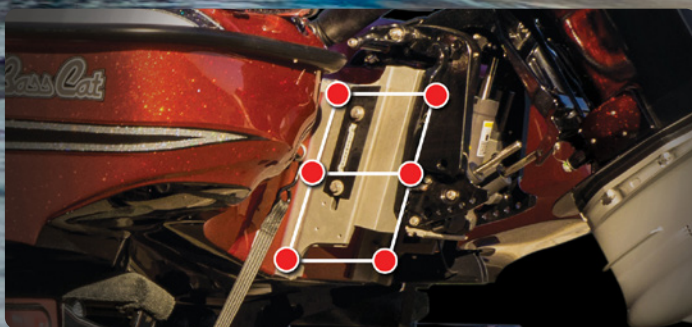

TAKE A CLOSER LOOK

Boats are not created equal. Every Bass Cat leaves the factory with a blend of proprietary raw materials, custom-built assemblies and decades of fine-tuned processes that keeps them running strong beyond your years of ownership.

VACUUM PROCESS HULL ASSEMBLY

Custom-matched stringers, floors and transoms are pulled together using massive vacuum pumps. This creates our famous one-piece hull design that you can truly feel as you pass the competition on the water.

CUSTOM 6-BOLT JACKPLATES

The custom plates made for Bass Cat are a big deal. Added rail length, full transom support and an extra tie bar gives you the advantage on big water.

FULL-WIDTH TRANSOM STRENGTH

No one compares to the BCB all fiberglass, vacuum molded units that extends the entire width of the boat. No fillers are used as we set into wet fiberglass to secure them to the hull.

CUSTOM-BUILT TRAILERS

Our trailers are built in-house, with the same intensity and passion that goes into our boats. Custom-fit to each boat model and made with U.S. steel.

28oz. PREMIUM MARINE CARPET

Not all marine carpet is equal. We use the heaviest grade available; 28-ounce per square foot. This carpet goes in every Premium Bass Cat model for better wear, less fatigue and longer life.

QUALITY GEL COAT APPLICATION

Strategic steps utilizing high atomization and a wet flake application. This gives our boats the look, feel and consistency that is unmatched in our industry.

BCB Tournament Rewards

Rewarding Owners For Over 20 years

Bass Cat would like to congratulate all recipients of the QUEST Tournament Rewards program this past year. John Crews fished a flawless event on the St. John's River to start the season strong. Followed by the Smith Lake sensation, Jesse Wiggins celebrating his first BPT victory.

QUEST is the most robust tournament rewards program in the industry. New boat owners are automatically signed up for Quest and qualify for our Tier-1 incentives for two years.

Used Bass Cat owners qualify at the time of warranty transfer with a one-time fee. Bass Cat also built-in a rewards program for our young anglers in both youth and college categories.

With so many opportunities to qualify for your share of QUEST rewards, it simply pays to run with BCB on tournament day. Visit BassCat.com for full details and take advantage of the QUEST tournament incentive program!

VAGUAR

Length22 ft 0 in
 Beam94 in+
 Hull Weight.....*2275 lbs
 Fuel Capacity60 gal
 H.P. Range250-400

STS

Soft Touch Series

***NOTE:** Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

KING OF THE HILL

Swing-out 3700 storage for easy access. Plenty of room for additional boxes.

Port walking ramp ample co-angler rod storage area. Above/below storage. 8.5' max rod length.

Siren Marine's Connected Boat® technology provides you with peace of mind through real-time monitoring.

Dual crash helmet box with lift out shelf for second helmet storage. Fits full face motorcycle style helmets.

High intensity LED docking light with billet aluminum step plate cover.

The Jaguar is in a class by itself as a predator to its own. Nothing was compromised in the design phase as the angler was in mind. One of the main objectives during the redesign of this original big body was overall performance starting at 250 or 300 horsepower. Or you can stretch it's legs out long with a choice of 350, 400 and the ultimate 450 ponies. The added length and BCB signature hull design chews

up waves with the new *Soft Touch Hull. Interior modifications abound from bow to stern. Inspired off of the stunning Lynx styling, it comes with the 900 lumen docking light, billet aluminum rails and vents. The safety lights and wake light will give the pack behind you LED lighting to follow. This flagship model is improved all over as the Jaguar exudes luxury from every aspect. It remains the Apex of bass machines.

WIDE-OPEN PERFORMANCE

PREMIUM

Length 20 ft 8 in
Beam 96 in+
Hull Weight..... *2150 lbs
Fuel Capacity 60 gal
H.P. Range 250-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Unique front deck lid design to maximize storage, efficiency and accessibility.

Cavernous, lighted, off-center rod box with room for tackle storage on all sides. 8'6" max rod length.

Storage Length (with / without) Tongue Swing
25' / 27'9"

The Lynx has been modified as we power match hulls for today's engines. We are never a cookie cutter on design, and we wanted the Lynx to maximize the storage and deck space on both ends of the boat. Forward is a wedged center rod box that will easily hold 15 to 20 rods up to 9' (2) in length. That center rod box also stores up to 11 of those 700 series boxes. As with most of our models, a port rod storage is available with

starboard storage for everything you might need for any tournament, including helmets. The aft storage maximizes every square inch of space available. All while a longer hull line, and deep bow rise, provides a rock solid platform for fishing or running. It should stretch out and touch that next wave when others won't. If you want a Bass Cat with room to spare that crushes rough water, the Lynx can fill that dream.

Rigid, one-piece fiberglass dash assembly designed for years of reliability.

Billet aluminium trim pieces throughout including LED enhanced handrails.

Adjustable front deck stance thanks to the removable pedal basin plug and dual seat pedestal locations.

PREMIUM

PUMA

Length 20 ft 7 in
Beam 96 in+
Hull Weight..... *2080 lbs
Fuel Capacity..... 60 gal
H.P. Range..... 250-300

STS
Soft Touch Series

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

SHOW STOPPER

Elevated mounting flat to offset dual graphs without additional mounts.

Proprietary lift-latch system conveniently flush-mounted outside of lid channels throughout the boat.

Damascus patterned trim inserts throughout the Puma STS.

Spacious passenger seating and rod storage. In-seat storage and billet aluminium handles within reach.

Dual tool holders in front of the insulated cooler under the front deck step.

Storage Length (with without Tongue Swing)
23'11" 27'8"

This truly is an amazing ride and is close to the larger Jaguar STS model. The Puma STS is a fresh build with a new hull and deck. This is our latest evolution in our wide beam STS hull platform.

This boat is laced with innovation from the dual front graph mounts to the Lift Latches we have a provisional patent on. They are totally outside the box openings and storages will be drier.

The Lift Latches are a proprietary system and only available on our models. Standard features are not available elsewhere as the carpeting is custom

made for us in 28 ounce weight and the Glen Raven Horizon vinyl is yours to choose and extend the life of your seats.

The new Damascus Steel pattern on the dash panels brings an aesthetic flair to all Premium models. While the new Billet Hand Rail on the Puma STS and Jaguar STS is greatly altered and can even be RGBV controlled if you want.

This boat is already establishing itself with more dominance than any model since the 1988 Pantera II and Sabre. It has features many already appreciate.

PREMIUM

COUGAR

Length20 ft 4 in
Beam 94 in
Hull Weight..... *2030 lbs
Fuel Capacity 52 gal
H.P. Range 250-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

SEEKS COMPETITION

In 2021, we made one of our most popular boats even better, keeping that Tour angler in mind. The center storage allows you to access your gear without moving your deck rods. The console continues those updates to better accommodate larger single or dual graphs. Rear storage access is improved, and the rear deck has dedicated twin doors to program those Power Pole pumps with ease. Over those are twin drop in bait trays. And storage exists under the touted Wave Crusher bucket seats and dual cockpit coolers. Storage is organized as every square inch of this boat was carefully planned to enhance your ability to compete. It's nimble as it comes with the dry riding Legacy Bass Cat 20' hull, select anglers will choose the new Hybrid 203 hull also available. Our Cougar FTD has been a solid performer and will continue to make its mark as a Tier-1 choice.

Durable, all-fiberglass dash with new dual graph mounting layout.

Model of choice for Elite Series Pro, Mike Iaconelli. He prefers the FTD layout for his style of fishing.

Dedicated anchor pump compartments with storage tray inserts.

Adjustable foot pedal placement to fine-tune your stance on the front deck.

Partitioned day use box and tackle storage within immediate reach.

Storage Length (with without Tongue Swing)
23'2" 26'1"

PREMIUM

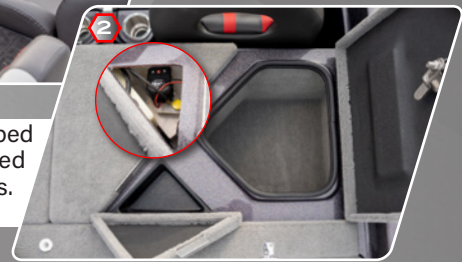

Length20 ft 4 in
 Beam 94 in
 Hull Weight.....*1890 lbs
 Fuel Capacity 52 gal
 H.P. Range200-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

A BASS-MASTERPIECE

Low-profile, secure seating with legroom for the tallest anglers.

Rear deck storage re-shaped to accommodate dedicated anchor pump on both sides.

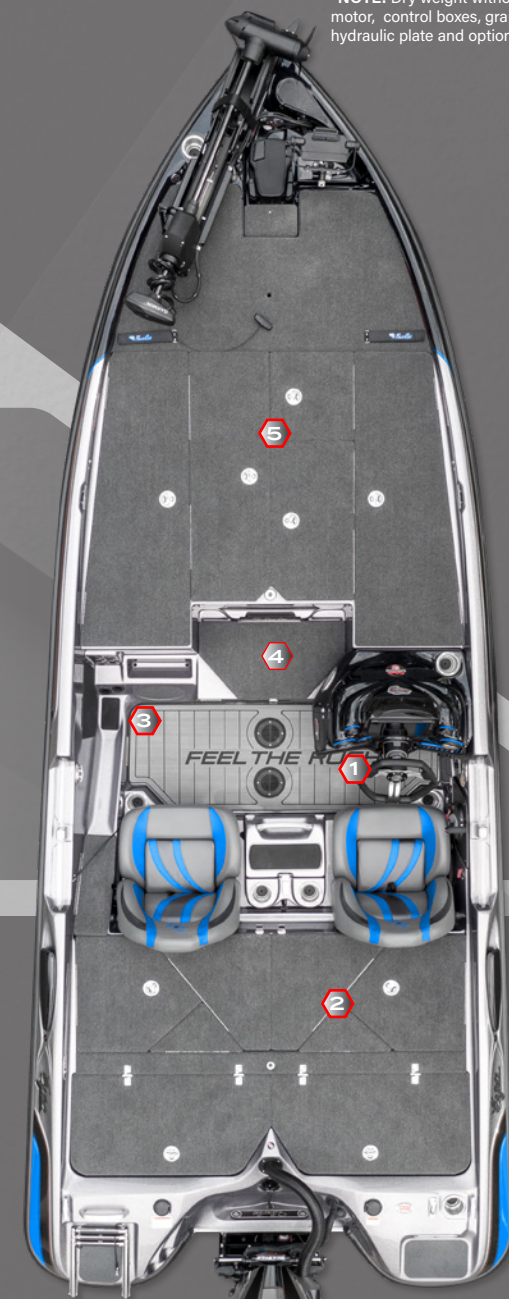

Co-angler padded rod rack with extra storage box and an open catch-all tray.

Large divided cooler keeping food dry on an elevated shelf above the main drink box.

Unique coffin-style lid configuration to optimize accessibility and storage options.

Storage Length (with / without) Tongue Swing
 22'11" / 25'10"

Eyra owners are passionate about their boats. It is more than just a work of art in the style department. The beauty of this model lies in its capabilities on plane. The hyper-responsive hull senses your throttle, trim and steering gestures as you encounter on water conditions. Anglers appreciate what this hull is capable of after they've enjoyed those hours behind the wheel. A muscle car look and feel exudes, as the Eyra boasts a layout to compliment

the most efficient angler. The coffin storage in the center is now copied and is flanked by large rod/tackle storages. You and your partners will stay fluid all day long. Enhanced refinements allows for easy access to Power-Pole pumps, while increasing storage access over the previous version. If you desire a high-performance ride with effortless control while fishing, the Eyra is what you want and more.

Length 19 ft 8 in
 Beam 96 in
 Hull Weight..... *1725 lbs
 Fuel Capacity 43 gal*

10	26 26	26

A WIDE THROWBACK

Under-seat storage for driver and passenger.

Integrated net, tool and ruler storage with Damascus steel pattern trim on the front deck, port side.

Vented, lighted, central rod/tackle storage for easy access without moving deck rods out of the way.

Convenient day use box on the starboard side of the two front deck pedestal bases.

Walking/rod ramp with co-angler rod locker. 7' maximum rod length.

The Caracal name is a throwback to the 17 foot hot rod version that dominated in on water performance at the 1990's Top 100 Tour. The heritage of the name is preserved in this wide-bodied hull, and it draws a new base to the name. Accolades have adorned it with comments from owners enjoying it. Features include the side insert net scabbard in the port deck, tool and ruler slots, tandem (2) aft storages, port and

off-center line rod storage, and even a rod locker for your partner. A day use box is back at the front like those early 1990's Caracal II models. The massive triangle livewells of the Premium Series lineup populate the rear deck, along with a large starboard storage box. The stability at rest is exceptional for that tippy test. On the run, this model has joined the wide-body concepts that continue to evolve.

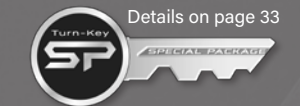

Storage Length (with without) Tongue Swing
 23' 25'9"

ADVANTAGE

Pantera II

Length 19 ft 1 in
 Beam 93 in
 Hull Weight..... *1585 lbs
 Fuel Capacity..... 33 gal
 H.P. Range..... 135-200

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

SET THE
PACE

The Panthera II is the most manufactured boat model in bass fishing. Introduced in 1988, they were sold as they unloaded from the trucks, while holding a waiting list not rivaled today. Little has changed in the hull frame for good reason. This is one of the most efficient, driest and quickest boats on the market, not just this segment. Updates, redesigns and refinements have been made since its introduction, and the Panthera II still shines as a

hometown competitive boat. Dual rod lockers sit outwards of two storages and the raised deck sets the tone on most any water out there. Serious competitors once preferred it around the world. Add the option of 43 gallons of fuel feeding a 200 HP engine, it gives this model a range to reach most any tournament water. The Panthera II sets the pace while hanging with other brands running larger engines.

Rigid fiberglass console with updated dual BalZout mounting flats.

Co-angler rod organizer to protect up to five rods while running.

8' port side rod organizer. Rod tubes with an open rod shelf along the bottom.

Streamlined pedal/electronics tray enhancing maneuverability and casting efficiency.

Ruler storage under the all-fiberglass console.

Storage Length (with without Tongue Swing)
22' 24'4"

Length18 ft 1 in
 Beam 93 in
 Hull Weight..... *1520 lbs
 Fuel Capacity 33 gal
 H.P. Range115-175

***NOTE:** Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Details on page 33

SMALL FOOTPRINT
BIG
 PERFORMANCE

Stay on point with the forward-focused recessed pedal tray.

Padded co-angler rod rack with plenty of legroom and a passenger grab handle.

Twin front storage boxes keeping plenty of gear within reach at all times.

Large front deck step cooler. A built-in sandwich tray keeps your food away from wet ice in the main compartment.

A built-in reel pocket helps give your reels enough clearance from the trolling motor.

The Sabre FTD is a perfect example of good things coming in small packages. This model has everything to satisfy even seasoned anglers. A look at the 2022 SP Series will provide performance that fits most any budget. The SP (Special Package) is the choice for an angler seeking a quick and efficient tournament-ready rig. A common theme here is another efficient hull design. Just like other Bass Cat models the Sabre FTD excels at getting the most in terms of fuel economy and

performance. From large lakes to skinny water this 18' model makes a perfect fishing platform for the versatile angler. This one is not an inexpensive starter, it carries the same construction of the Jaguar, as only the *optional Vinyl Ester *AME 6001 resin is different. This boat carries multiple common strengths across the pride and retains them in a smaller footprint. You're gonna' love it in the SP Series.

Storage Length (with without) Tongue Swing
 22'1" | 25'

A CLASSIC COMPETITOR

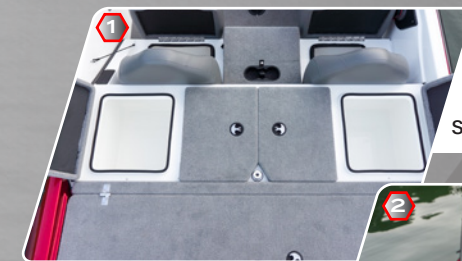

The primary objective of this Pantera Classic model achieve a market for starting young anglers and those on the other end of their fishing. The 19'6" hull carries the 90" in a beam forward design of a wider front deck space, while still allowing the rig to fit comfortably into most garages. The streamlined hull design carries itself well power with a 24-volt trolling motor. Rated for a 200HP engine, the 30-gallons of fuel capacity will allow ample range. Storage onboard the new Pantera Classic

flows nicely from bow to stern. The front deck hosts, a never before designed, inset box lids and a central 8'6" rod capacity. The design allows anglers access to their outer storages without having to move rods on the deck. Added to that the under seat and large rear storage units accommodate a full tournament load for you and your partner. The Pantera Classic cracks the door to anglers demanding a wide beam feel in a value-conscious package.

VISION

Length	19 ft 6 in
Beam	90 in
Hull Weight.....	*1550 lbs
Fuel Capacity	30 gal
H.P. Range	150-200

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Large dual rear deck storage boxes on either side of the divided livewell.

Ergonomic pedal basin with dual pedestal bases provides maximum comfort.

Central rod storage flanked by additional boxes for easy rod access among deck rods already in use.

Under-seat storage for both driver and passenger.

Rigid dash assembly capable of flush mounting 12" displays. Custom switch panel and 6X steering wheel.

Storage Length (with without Tongue Swing)
22' 24'4"

VISION

Bobcat

Length 17 ft 7 in
 Beam 90 in
 Hull Weight..... *1390 lbs
 Fuel Capacity..... 26 gal
 H.P. Range..... 70-150

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

HANDLE ANY TASK

We built the Bobcat with a price tag and construction technique no other competitor can touch. The innovative design features a huge center rod locker. There's a massive center rod locker that will never leave you unprepared for the day. The rear deck is large and offers storage for your partner, as well as a tool tray for you to stow gear. It gives a soft ride in a big bodied boat. The hull has some neat tweaks to allow engines from 70 hp to the top end 150 four strokes. Just take your pick and price them accordingly to fit your budget. The Bobcat will handle any task with ease and give you the safety, ride and function at a price others work hard to beat.

Convenient storage drawer built into the front deck step.

Spacious cockpit with two-step, comfortable access to the front deck.

Starboard deck rods tips are protected by a carpeted console ramp.

Full rear deck access to additional storage and the bilge area.

Oversized central rod/tackle storage box to hold everything you may need for the day.

Storage Length (with / without Tongue Swing)
 22'7" / 25'2"

COUGAR 203 HYBRID OPTION

SABRE FTD SPECIAL PACKAGE

Length 20 ft 4 in
Beam 94 in
Hull Weight.....2100 lbs
Fuel Capacity 60 gal
H.P. Range 250-300

Cougar FTD details on page 16.

After public perception of a competitor’s hull began to shift in the early 2000’s, Rick Pierce undertook a 15+ year project to merge desired traits from two brands into one. The Cougar FTD 203 Hybrid combines one of the most popular Bass Cat models in tournament fishing above the waterline with a running surface that

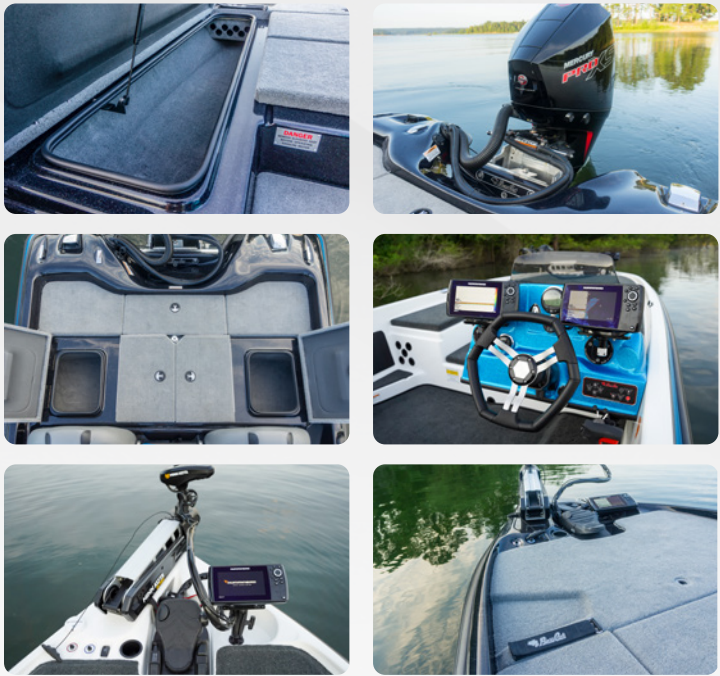

maintains a specific feel loyal 203 aficionados demand. Rough water is easily tamed with a forgiving entry and smooth transitions off the corners when the waves can’t make up their minds. Whichever hull you desire, the Cougar FTD is a proven tournament-winning platform that will be around for years to come.

BCB CUSTOM TRAILERS

Built For The Miles Ahead

We take our trailers very seriously. Unlike many manufacturers, we build Bass Cat trailers one at a time. Custom fit to the specific hull design of each model. Every cross member and support is jigged, fitted, and welded using U.S. Steel to exact tolerances.

Your safety and the investment you have made in your boat are not taken for granted. We demand the highest quality materials and hand craftsmanship for safety and security on the road. It's more than a boat purchase, it's a trailer purchase too!

2023 Invitational • May 4-6 • LAKE NORFORK, AR
Over 150% Payback - Family Friendly - Wild Card Prizes - Meet Our Pros

The 2023 Owners Invitational is set for a return to Lake Norfolk! It's open to all Bass Cat owners and once again, we have some great prizes in store. One lucky Grand Prize drawing winner will be going home with a Mercury powered Premium model Bass Cat, outfitted with Humminbird/MinnKota accessories. It's our way of saying thanks to all of you for being part of our family. Lake Norfolk is where the BCB Owners Invitational began. The 2023 event will mark the 36th Invitational and we can't wait to see you there!

WE PROUDLY SUPPORT THE FOLLOWING ORGANIZATIONS

More info at BassCat.com > Events

BASS CAT TRANSFERABLE LIFETIME WARRANTY

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two-year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. Certain items are under coverage by the manufacturer(s), separate of Bass Cat manufactured goods. Bass Cat makes no claim to represent, circumvent or exercise the independent manufacturer(s) warranties.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, alteration, neglect, accident, used for racing purposes or operated in a negligent manner at the opinion of Bass Cat boats; (5) upholstery damage; (6) any boat utilizing over an 8" jackplate (2009) or altering of standard equipment offered specifically by Bass Cat; (7) any boat which is been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component expired within a reasonable time of its expected operational period.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public," or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, or complete transfer, may make it impossible for Bass Cat Boats to give direct notice to such purchaser and does not execute warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat. During the term of this warranty repairs will be made free of charge, at any authorize Bass Cat service center under guidelines excepted by Bass Cat, or by Bass Cat itself at its discretion and approval. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats Will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as standard or optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards, and covers.

An extended Lifetime Warranty also applies. These are transferable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. Transfer is only complete upon receipt by Bass Cat, qualification, fees and transfer.

Extended lifetime warranty to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass an applicable qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition maybe judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

Assessments of the Lifetime Warranty will be executed base prorating dependent on the age and condition of the boat, using NADA, ABOS, or similar accepted value booklets available at that time.

Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those company(s) dealers, agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.
