

 **Bass Cat**
FEEL THE RUSH

Why We Do What We Do

This is a very different cover memo than we have ever printed. We're not the new kids on the block, this is about who we are and what we became... I call it our why. Sure, it's about boats, product, and wanting you to know what the product is. And that information is in these pages. This cover memo is to tell you more than that, more about us and our customers. This covers over 40 years of our 54 years in business. It is how we reached a 93% to 95% customer loyalty.

Over decades I've penned these letters for our brochure. I wrote them with Dad's (Ron) signature, then later we shared this page. Here we've talked about anglers, awards, quality, the best materials and the path of this company over years. This will give you a taste of that... and more.

Achievements That Define Us

It's easy to mention those five (5) consecutive JD Power Awards for bass boats, NMMA Innovation Awards, numerous CSI awards, multiple "boat(s) of the year", and more. Recognitions I am proud of are the Better Business Bureau Torch Award and a Secretary of Defense recognition for employing National Guard and Reserve personnel. While each of you are responsible for those accolades in your way, as is everyone here, for you are the fabric also. No legacy business culture is complete without the culture of their customers. No doubt, we have a special passion-driven culture, now let us view that path.

The Tough Years That Shaped Us

In 1971 thru 1982 we built hundreds of boats, then in '82 we slid to 32 boats built that model year. That era saw this industry's worst decline ever. Yes, worse than the 2010 recession. Anyone from that era can tell you of the 1980's Savings and Loan scandals, oil at a premium, 20% and higher interest rates based on prime rate being off the charts. It was a very difficult time as Ronald Reagan took office, and he had some work to do.

Today, things are much more stable, an entire multi-generational pool has no way to relate to those times. No different than my generation understanding WWII or "the great depression."

Adapting and Innovating

What we did in 1982 was to change things inside, at that 10 to 11 year mark of 1982. I told Dad we needed to change our mantra. It seemed everyone was trying to build bass boats in the 1980's. At one point we had over 70 bass boat competitors. To thrive, or even survive, we needed to become

different. He always built a great boat; we needed to become something else. And we started to create something different... how do you start an entire culture of its own?

First, with customers, as we began working on a customer service culture that has proven unmatched to what we know, by any industry. Next, leaving the numeric model labels of 1800 Vee, 185, XS20, 721, 119, 520, and etc. which everyone used, and they still do. You buy a Tundra, Corvette, Mustang, Expedition, or Suburban. Your pickups have numbers for tonnage weights.

Building a Brand and a Family

We began building names into the branding, using Cat names to align with our brand image. This came along with product as we developed the Pantera Pro, Caracal, and more to come. That model was the first 200 HP rated 19' model in bass fishing, when 150 engines were keen. The Jaguar STS today aligns with that trend in a 500R, breaking the norm.

Next was the original Owner's Invitational event for our boat owners, where we highlight how much each of you mean to us. This built onto the loyalty as many owners came from hundreds of miles to participate in what was termed as "The Family Reunion." That is where the original Bass Cat "Family" took hold. Over the history of this event, it has averaged a participation of 506 boats. The largest was 769 boats in 1996, as folks came from all over! One other bass boat owner event does exist today, and many others have tried the concept.

Improving the User Experience

In 1982 we also started building our own Bass Cat trailers. We offered other brands prior, and they were fine, not great. We strove for great... focusing on USA C-channel, staying with welded frames. Paint has been PPG for decades, a premium brand. Fiberglass fenders like Ozark Boats started in the mid-1970's. The 2 x 6 bunks trimmed to fit the large flat area, without going to a simple 2 x 4 width (3.5" width), assuring better support. And there are no adjustments. We innovated with the first pivot tongue and the first grab post with a step. Those features have been copied, replicated, and expanded on by many.

Why? Because it matters. It matters to us, and that's because it is better. Being driven to do something others don't is not anything new around here. It is about improving the "user experience."

Innovations That Changed the Industry

As we talk innovations, the Pantera II and Sabre of 1988 brought way more standard equipment into bass boats than any bass boat had ever had. New innovations were a standard jack plate, interior lighting, elevated decks, dual pumps, larger fuel tanks, and much more. That all gave others a reason to choose our brand, as we moved forward on the mission. Yes, that end-user experience was known to be unlike any other on the water then. It's also the time we started rebuilding a Tour Team of high-class professionals. There was a lot coming together in the 1980's. This continued into the 90's, as did the recess trolling motor pedal of 1994 and more. So much, building a path to the future.

Connecting with Our Customers

For us, as our direction changed so did that of our customers. Each of you began to speak more about us. Each of you became our mouthpiece and as those 1990's years came around, so did the internet. A place where it could be known about that customer service we provided. No longer were you only telling your bass club about the experience you had; many of you were sharing it with people you did not know.

Sharing our core values got a boost in the 1990's, as the internet gave everyone a place to say the good, as well as the bad. Often referred to as the 'wild west,' as early on the web had anyone with a keyboard seeming to offer an opinion, as if to be an expert. Eventually, those threads got cleaner, and we made the decision to participate in those early forums. In the late 1990's, starting our own Bass Cat Owners Forum, at BassCat.com, something no other competitor has openly risked. Here you got real answers and how-tos, directly from those who designed and built your boat(s).

Programs and People That Drive Loyalty

Of course, there's Quest also. The most versatile incentive program in the USA. No other program covers your college or high school children. No other program offers you more (150%) if you both run a Bass Cat, and no other program gives you back seat co-angler money for winning. And it's got deep Tier 1 benefits for new boat owners that will line up to any branded program for a win.

During that 1990's period, we began a successful service and parts department. Over time we had Gary, Junior, Scott, Pete, Lisa, Mike, Allan, Jared, and now Hayden on the phone. Actual people you can speak to

about parts, how the wiring works, what your seats need. As Allan said, "don't mess with my people." He cared deeply about each of you right up to his retirement.

Looking Ahead

Daylon, Jared, and Hayden do carry that torch for us presently. Each one managing to handle that customer service you expect. Service that goes well beyond your dealership and the warranty period. The average retail owner keeps a Bass Cat 8 to 15 years; that level of service is important to all of you.

Then next, not last, on the customer experience side, is the Used Bass Cat Boats For Sale board, at BassCat.com, that is so important to all of us. If we have a 93% to 95% loyalty, then we all need to sell those used boats. Because every previous Bass Cat owner will be looking to replace that boat with another Bass Cat. No other company has this focus, and we care deeply.

While we just shifted into today's world. On the inside today, Gary and Joe are the mainstay in tooling, Danny anchors GelCoat, Chuck still locks in the FRP industries highest glass content in Lamination, Michael has a great hand on Boxing, Scott dresses the hardware as he oversees Finish, Barry guides them through Rigging, Chuck and Rob have the Trailers team, then Vince rolls through them in Check out. If they need a touch-up, then Garry and his team have that managed, and all of that is under Stuart's production management, as it has been for decades. On top of that in Bass Cat, we have Roy overseeing the finish and rigging of our the Yar-Craft brand. He's fully trained in both brands. This segment of leadership compiles over 250 years of boat building expertise, ALL those years were amassed in these buildings. And they are supported by a staff with hundreds more total years building only Bass Cats.

Now you know where the focus has been for decades now, and why. That is all why a Bass Cat owner is so loyal to our brand, and we know that each one of you is that important.

Thank you for considering joining our "Family," and we hope you join us with the passion we all share.

Good Fishin' and God Bless,

Rick

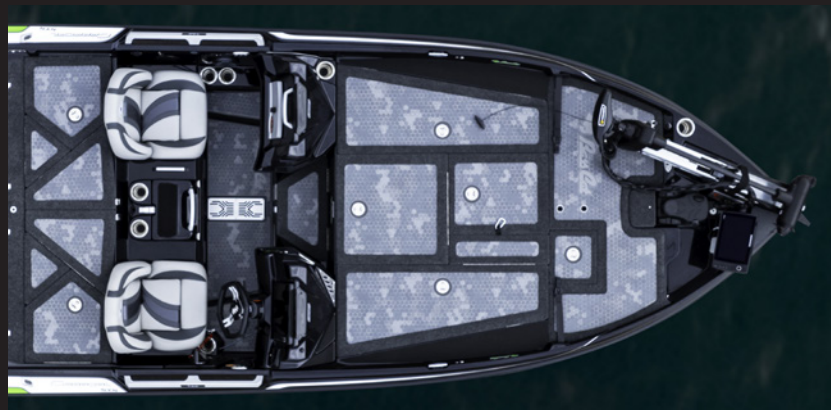

SIGNATURE PERFORMANCE

SIGNATURE RUNNING SURFACE

All Bass Cats have a special feel that you don't find anywhere else. There are many subtleties that lie within every internal assembly as well as the running surface, providing a responsiveness that has to be experienced. The Signature hull design turns the water down to keep you dry. Instant bow lift allows you to pick your way safely through the roughest water. This refined hull design gives you the ability to ***Feel The Rush™*** like nothing you've ever driven.

FRONT DECK FEATURES

Every aspect of the front deck is tailored to optimize efficiency. Narrow gunnels maximize deck space. Quick, unobstructed access to rods and tackle at all times thanks to innovative storage solutions. Several layout variations ensure compatibility with all angling styles.

BOWMOUNT FEATURES

Trolling motor placement is crucial to maximizing efficiency while deployed. Precision maneuvering and proper tracking are achieved with the centerline mounting angle. Forward recessed pedal locations provide an ideal casting stance at all positions.

FEEL THE RUSH™

SIGNATURE CONSTRUCTION

TRANSFERABLE LIFETIME WARRANTY
HULL • TRANSOM • FLOOR • STRINGERS

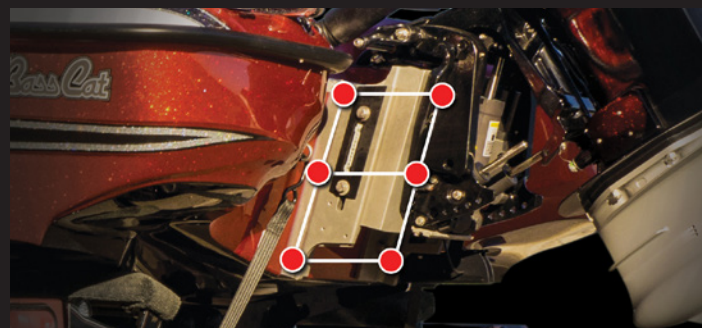

TAKE A CLOSER LOOK

Boats are not created equal. Every Bass Cat leaves the factory with a blend of proprietary raw materials, custom-built assemblies and decades of fine-tuned processes that keeps them running strong beyond your years of ownership.

VACUUM PROCESS HULL ASSEMBLY

Custom-matched stringers, floors and transoms are pulled together using massive vacuum pumps. This creates our famous one-piece hull design that you can truly feel as you pass the competition on the water.

CUSTOM 6-BOLT JACKPLATES

The custom plates made for Bass Cat are a big deal. Added rail length, full transom support and an extra tie bar gives you the advantage on big water.

FULL-WIDTH TRANSOM STRENGTH

No one compares to the BCB all fiberglass, vacuum molded units that extends the entire width of the boat. No fillers are used as we set into wet fiberglass to secure them to the hull.

CUSTOM-BUILT TRAILERS

Our trailers are built in-house, with the same intensity and passion that goes into our boats. Custom-fit to each boat model and made with U.S. steel.

28oz. PREMIUM MARINE CARPET

Not all marine carpet is equal. We use the heaviest grade available; 28-ounce per square foot. This carpet goes in every Premium Bass Cat model for better wear, less fatigue and longer life.

QUALITY GEL COAT APPLICATION

Strategic steps utilizing high atomization and a wet flake application. This gives our boats the look, feel and consistency that is unmatched in our industry.

BCB Tournament Rewards

Rewarding Owners For Over 20 years

- ☒ OWN A BASS CAT
- ☒ REGISTER FOR QUEST
- ☒ COMPETE

Bass Cat would like to congratulate all recipients of the QUEST Tournament Rewards program. Several of our owners enjoyed major payouts for their tournament victories and top finishes this season.

QUEST is the most robust tournament rewards program in the industry. New boat owners are automatically signed up for Quest and qualify for our Tier-1 incentives for two years.

Used Bass Cat owners qualify at the time of warranty transfer with a one-time fee. Bass Cat also built-in a rewards program for our young anglers in both youth and college categories.

With so many opportunities to qualify for your share of QUEST rewards, it simply pays to run with BCB on tournament day. Visit BassCat.com for full details and take advantage of the QUEST tournament incentive program!

Compete in hundreds of sanctioned events!

WE PROUDLY SUPPORT
THE FOLLOWING ORGANIZATIONS

PREMIUM
NEW
JAGUAR STS

Length 22 ft 0 in
Beam 94 in+
Hull Weight *2275 lbs
Fuel Capacity 60 gal
H.P. Range 250-500

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

The Jaguar STS defines excellence for those who refuse to settle for less. This year, we've reimagined the cockpit layout to make it even easier to access the front deck, while giving you and your passenger the extra room you've been asking for. It's all about comfort, function, and making your time on the water better than ever.

From the dedicated helmet storage and LED docking lights and billet aluminum handrails, this boat is packed with features designed with you in mind. The custom 28-ounce carpeting and Glen Raven Horizon vinyl are built to last, keeping your rig looking sharp season after season.

If you want to talk power, the Jaguar STS is perfectly matched with the V10 400R Mercury Racing engine. Designed to provide solid performance throughout the recommended horsepower range, this pairing delivers exceptional speed and unmatched control, letting you command the water with absolute confidence.

The Jaguar STS isn't just a boat—it's a statement. It's built for those who demand to sit at the helm of the pinnacle of bass boats, where craftsmanship and capability reign supreme.

Optimized running surface to accommodate a wide range of available horsepower.

Updated cockpit area for increased room and front deck access.

Quad central storage units flanked by rod storage and day box trays.

PEERLESS. FEARLESS.

PUMA STS

Length 20 ft 7 in
 Beam 96 in
 Hull Weight *2080 lbs
 Fuel Capacity 60 gal
 H.P. Range 200-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
 26'8" | 23'11"

The Puma STS takes you on an incredible ride that holds its own next to our larger Jaguar STS. Its hull design balances both agility and stability, giving you confidence in a wide range of conditions while still offering a smooth, comfortable ride.

Damascus Steel dash panels add a bold touch to all Premium models. Billet Hand Rails, featured on both the Puma STS and Jaguar STS, can even be RGBV-controlled, allowing you to customize your lighting experience.

A remarkable running surface that leads the 20 foot category in performance and stability.

The Puma STS carves its own path with advanced features and performance, much like the iconic Pantera II and Sabre did back in the day.

Anglers are already discovering the unique design details that set this model apart, from its nimble handling to the powerful response of its hull.

This is more than just a boat—it's a reflection of our legacy and our commitment to serious anglers.

Updated dash to accommodate dual graphs and new multi-function displays.

Billet aluminium accents with LED lighting, updated all-fiberglass consoles.

PUMA

STS

ART IN MOTION.

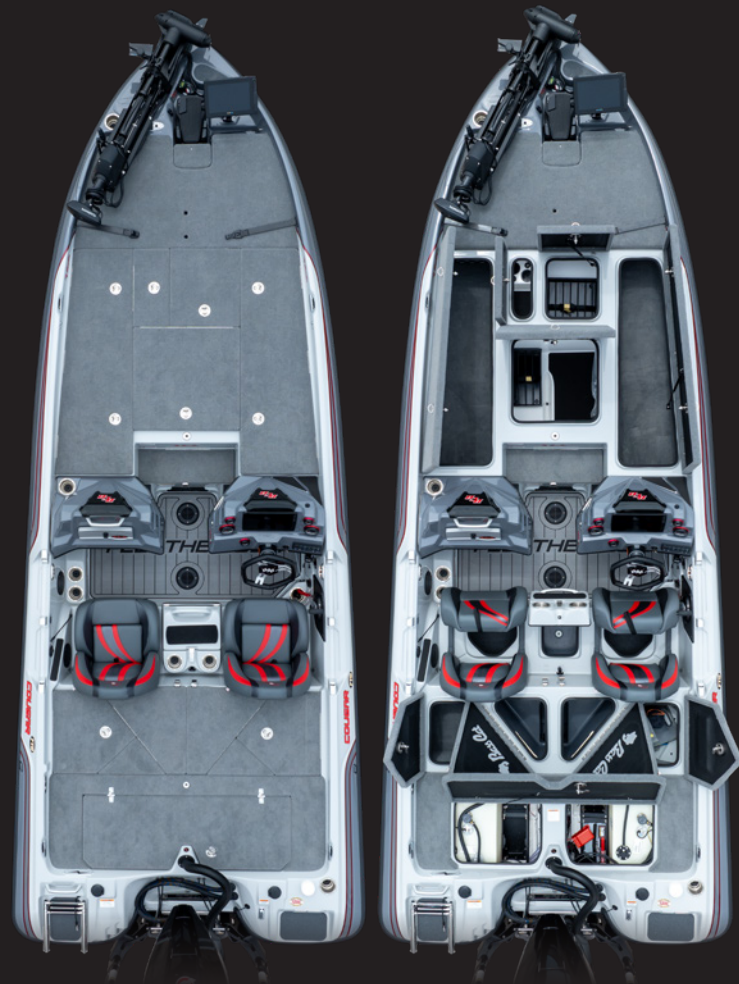

COUGAR FTD

Length20 ft 4 in
 Beam94 in
 Hull Weight.....*2030 lbs
 Fuel Capacity.....52 gal
 H.P. Range.....200-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
 26'1" | 23'2"

We made one of our most popular boats even better, keeping that Tour angler in mind. The center storage allows you to access your gear without moving your deck rods. The console continues those updates to better accommodate larger single or dual graphs.

Rear storage access is improved, and the rear deck has dedicated twin doors to program those Power Pole pumps with ease. Over those are twin drop in bait trays. And storage

exists under the touted Wave Crusher bucket seats and dual cockpit coolers. Storage is organized as every square inch of this boat was carefully planned to enhance your ability to compete.

It's nimble as it comes with the dry riding Legacy Bass Cat 20' hull. Our Cougar FTD has been a solid performer and will continue to make its mark as a Tier-1 choice.

Classic Bass Cat style and feel. Updated fiberglass fenders for 2025 on all Premium models.

Updated control panel, all-fiberglass console construction.

Adjustable recessed pedal tray to fit your desired stance.

COUGAR

SEEKS COMPETITION.

COUGAR 203 HYBRID

Length20 ft 2 in
 Beam96 in
 Hull Weight.....*1890 lbs
 Fuel Capacity.....52 gal
 H.P. Range.....250-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
 26'1" | 23'2"

After public perception of a competitor's hull began to shift in the early 2000s, Rick Pierce undertook a 15+ year project to merge desired traits from two brands into one unparalleled design.

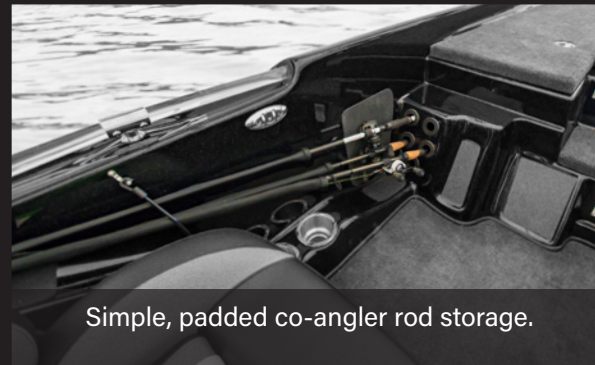

The Cougar FTD 203 Hybrid seamlessly blends one of the most popular Bass Cat models in tournament fishing above the waterline with a running surface that captures the distinct feel loyal 203 aficionados demand.

Its refined rough-water handling features a forgiving entry and smooth transitions off the corners, excelling when the waves can't make up their minds.

With unmatched storage, precision handling, and the pedigree of a champion, the Cougar FTD 203 Hybrid is not just a boat—it's a legacy in the making, built to be a tournament competitor for years to come.

A truly unique hull offering the sought-after, big water feel from a loyal group of anglers.

Simple, padded co-angler rod storage.

Fiberglass center console with easy access to a second cooler underneath.

COUGAR

A CHAMPION IN THE CHOP.

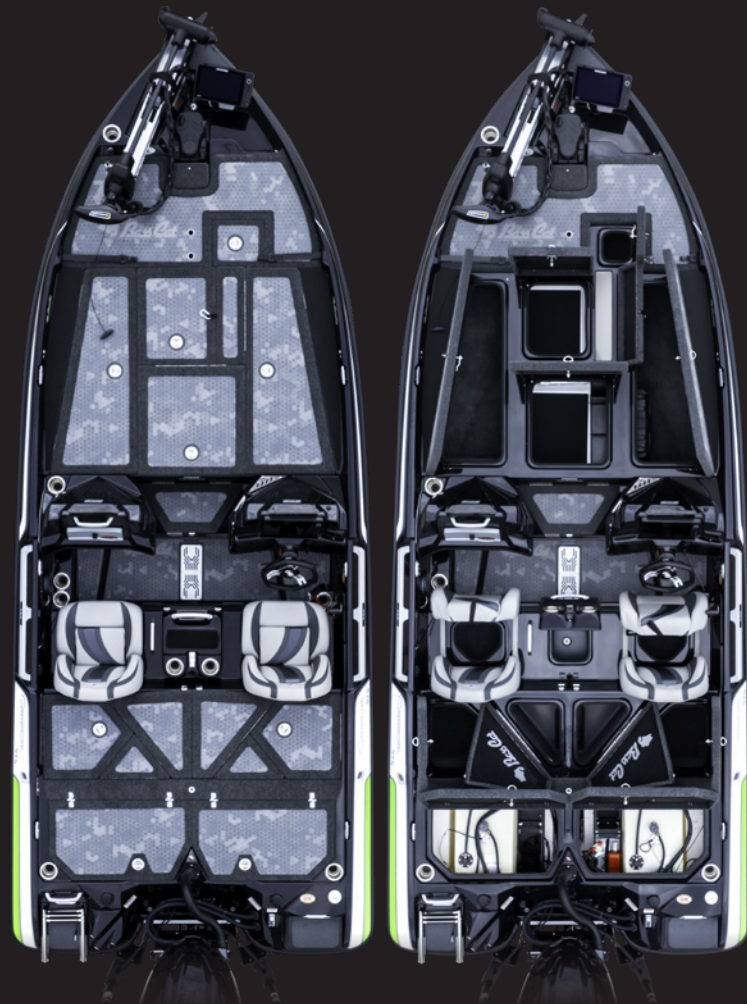

CARACAL STS

Length20 ft 2 in
 Beam96 in
 Hull Weight.....*1890 lbs
 Fuel Capacity.....52 gal
 H.P. Range.....250-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
 26'2" | 23'4"

The Caracal STS builds on the momentum of last year's introduction, further refining what it means to command a 20-foot bass boat.

This wide-bodied marvel remains true to its lineage, carrying the legacy of the Caracal name forward with unmatched innovation and style. The 96" beam and Soft Touch Series (STS) hull deliver superior stability, ride quality, and space, making it a leader among bass boats in this class.

In the cockpit, ergonomic updates enhance

both comfort and functionality, with optimized storage solutions that meet the demands of competitive anglers.

Each outing in the Caracal STS reaffirms its reputation as a powerhouse, destined to set new benchmarks in handling and performance.

This model doesn't just live up to the Caracal name; it propels it into the future, embodying a blend of tradition and cutting-edge design for serious anglers who expect more from their vessel.

Multiple layers of STS performance integrated into the hull of the Caracal STS.

A wide breath on the front deck to make easy access and stability a priority.

Sleek, rigid and comfortable command center with Wave Crusher seating.

CARACAL

STS

WIDE STRIDES.

EYRA

Length20 ft 2 in
 Beam94 in
 Hull Weight.....*1890 lbs
 Fuel Capacity.....52 gal
 H.P. Range.....250-300

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
 25'10" | 22'11"

Eyra owners are passionate about their boats. It is more than just a work of art in the style department. The beauty of this model lies in its capabilities on plane.

The hyper-responsive hull senses your throttle, trim and steering gestures as you encounter on water conditions. Anglers appreciate what this hull is capable of after they've enjoyed those hours behind the wheel.

A muscle car look and feel exudes, as the Eyra boasts a layout to compliment the most

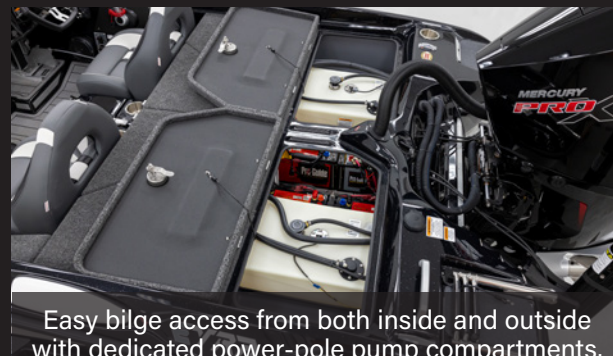

efficient angler. The coffin storage in the center is now copied and is flanked by large rod/tackle storages. You and your partners will stay fluid all day long.

Enhanced refinements allows for easy access to Power-Pole pumps, while increasing storage access over the previous version.

If you desire a high-performance ride with effortless control while fishing, the Eyra is what you want and more.

A high-performance ride with effortless control while fishing.

Easy bilge access from both inside and outside with dedicated power-pole pump compartments.

The coffin-style lids are a favorite feature of the Eyra.

A BASS MASTERPIECE.

PANTERA II

Length19 ft 1 in
 Beam 93 in
 Hull Weight.....*1585 lbs
 Fuel Capacity.....33 gal
 H.P. Range..... 135-200

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with without) Tongue Swing
 27'9" 25'

The Pantera II is the most manufactured boat model in bass fishing. Introduced in 1988, they were sold as they unloaded from the trucks, while holding a waiting list not rivaled today.

Little has changed in the hull frame for good reason. This is one of the most efficient, driest and quickest boats on the market, not just this segment.

Updates, redesigns and refinements have been made since its introduction, and the Pantera II

still shines as a hometown competitive boat. Dual rod lockers sit outwards of two storages and the raised deck sets the tone on most any water out there.

Serious competitors once preferred it around the world. Add the option of 43 gallons of fuel feeding a 200 HP engine, it gives this model a range to reach most any tournament water.

The Pantera II sets the pace while hanging with other brands running larger engines.

One of the most iconic hulls in bass boat history. A strong following remains to this day.

Padded rod storage for the passenger.

All-fiberglass console with flexible dash configuration options for gauges and graphs.

Pantera II

SET THE PACE.

PANTERA CLASSIC

Length19 ft 6 in
Beam90 in
Hull Weight.....*1550 lbs
Fuel Capacity.....30 gal
H.P. Range.....150-200

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing
24.7" | 21'10"

The primary objective of this Pantera Classic model achieve a market for starting young anglers and those on the other end of their fishing. The 19'6" hull carries the 90" in a beam forward design of a wider front deck space, while still allowing the rig to fit comfortably into most garages.

Rated for a 200HP engine, the 30-gallons of fuel capacity will allow ample range. Storage onboard the new Pantera Classic flows nicely from bow to stern. The front deck hosts, a never before

designed, inset box lids and a central 8'6" rod capacity. The design allows anglers access to their outer storages without having to move rods on the deck.

Added to that the under seat and large rear storage units accommodate a full tournament load for you and your partner.

The Pantera Classic cracks the door to anglers demanding a wide beam feel in a value-conscious package.

The streamlined hull design carries itself well powered with a 24-volt trolling motor.

Easy access to all storages without disrupting deck rods. Large center rod locker.

The beam is carried well into the bow allowing for a wide stance up front.

Pantera
Classic

A CLASSIC COMPETITOR.

BOBCAT

Length 17 ft 7 in
 Beam 90 in
 Hull Weight *1390 lbs
 Fuel Capacity 26 gal
 H.P. Range 75-150

*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length (with | without) Tongue Swing

23' 19"11"

We built the Bobcat with a price tag and construction technique no other competitor can touch. This boat is proof that value doesn't mean compromise.

The innovative design features a massive center rod locker that ensures you'll never be unprepared for the day. The rear deck is spacious, offering ample storage for your partner along with a tool tray to keep your gear organized and within reach.

Designed for a soft ride, the Bobcat provides the feel of a big-bodied boat. The hull incorporates unique tweaks, accommodating engines from a 70 hp to a powerful 150 hp four-stroke—allowing you to pick the performance level that fits your budget.

Built to tackle any task with confidence, the Bobcat delivers unmatched safety, ride and function, all at a price others work hard to beat.

A massive center rod locker, allowing easy access to your entire arsenal.

A roomy cockpit with easy access to the front deck via the integrated tool tray.

Convenient rear access and storage across the back deck of the Bobcat.

Bobcat

HANDLE ANY TASK.

CUSTOM COVERS WeatherMAX

Our custom travel covers offer a glove-like fit to protect your investment. Strapless design with dual ratchets secure the cover under the rub rail. Simple, one-person on/off with key abrasion point protection built-in to ensure long term durability.

WeatherMAX® boat covers are renowned for their exceptional durability, water repellency, and breathability, making them a top choice for Yar-Craft covers. Crafted from 100% solution-dyed SaturaMAX yarns, these covers offer superior strength and long-term color retention, ensuring lasting protection for your vessel. One of the standout features of WeatherMAX® 80 fabric is its HydroMAX™ finish, which provides outstanding water resistance without compromising breathability. This unique combination helps prevent moisture buildup beneath the cover, reducing the risk of mold and mildew formation.

IT'S MORE THAN A BOAT PURCHASE.
IT'S A TRAILER PURCHASE TOO.

- Rick Pierce -

We take our trailers very seriously. Unlike many manufacturers, we build Bass Cat trailers one at a time. Custom fit to the specific hull design of each model. Every cross member and support is jigged, fitted, and welded using U.S. Steel to exact tolerances.

Your safety and the investment you have made in your boat are not taken for granted. We demand the highest quality materials and hand craftsmanship for safety and security on the road. It's more than a boat purchase, it's a trailer purchase too!

4. Dual Display BalZout Mount 5. Ventilation System 6. BCB Fish Cable Hood
7. Wake/Safety Light 8. Lithium Battery Option 9. Retractable Rod Straps

MARINE CARPET OPTIONS

Three different color offerings (Premium) give you a perfect color-match and the durability to last long into your ownership. With the added strength comes increased comfort thanks to the tight weave and high fiber count. Our 16 and 28 ounce carpet has been UV stabilized to withstand years of exposure, keeping your dream looking fresh with proper care.

NEW CLOTHING & PARTS/ACCESSORIES STORES!

Our parts store is here to serve you regardless of your boat's age. We pride ourselves in maintaining a broad selection of parts for your brand new ride or restoration project. Give us a call and let us help you.

Check out our brand new apparel site with more items than ever before! Clothing for every occasion featuring some of the most popular brands on the market.

MON-FRI 8:30am - 4:30pm 870.481.5135

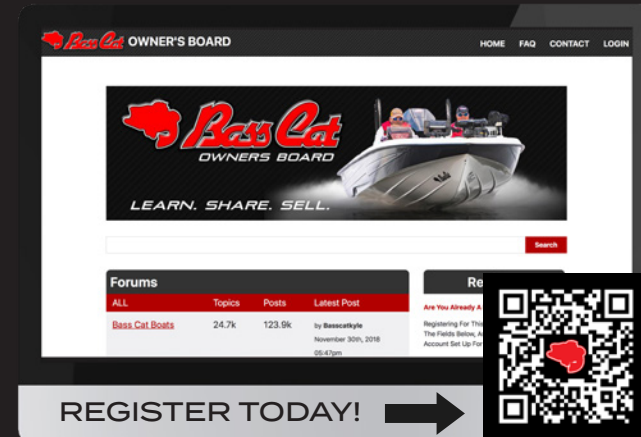

MILITARY ALLOWANCE

In appreciation of customers who serve, Bass Cat would like to extend a military allowance towards the purchase of a new Bass Cat to the following:

- Active military (CAC verification required)
- Retired military (CAC verification required)

BASS CAT OWNERS BOARD

Welcome to one of the largest online boating communities in the world! The BCB Owners Board is the place to be for bass boat questions and conversations. Communicate with thousands of loyal members and factory personnel.

2025 Invitational • Grand Lake O' The Cherokees

Over 150% Payback - Family Friendly - Wild Card Prizes - Meet Our Pros

Join us for the 38th Annual Bass Cat Owner's Invitational, set against the stunning backdrop of Grand Lake O' The Cherokees in Grove, Oklahoma! This premier fishing tournament celebrates the spirit of camaraderie and competition among Bass Cat boat owners, offering a thrilling weekend of angling excitement.

This year we have some great prizes from partners like Strike King, Lew's, Mercury, and many more that we will be sharing more of in the near future!

Fishing kicks off on April 25th and wraps up on April 26th, featuring two full days of competition on one of Oklahoma's most beautiful lakes. Compete for fantastic prizes and bragging rights as we recognize top anglers in various categories, including the overall champion and largest catch.

Don't miss out on this opportunity to showcase your skills on the water and connect with fellow enthusiasts!

REGISTRATION IS OPEN. SIGN UP TODAY!
